

Parent to Parent is a drug prevention training program for parents to help them through their children's teen years. It is an ideal training for all parents interested in protecting their children from the "Toxic Culture". The Safe and Drug Free Schools Department offers Parent to Parent throughout the school year. It is an 8 session video based training facilitated by a Safe Schools Counselor or trained Parent volunteer. I am the newly appointed coordinator for this program and I wanted to remind all campus principals about this program. I am including the current schedule and hope you can refer parents to this informative training.
