

## INSTRUCTIONS FOR DROPPING OFF AND PICKING UP STUDENTS

1. **No students drop off prior to 7:45 a.m.**
2. Leave home earlier, at least by 8:30 a.m. This will allow for heavy traffic on Dulles Avenue and other traffic problems.
3. Please refer to the map below. It shows the way we would like for you to enter the campus and drop off your children in the morning. If the traffic is stopped and your car is alongside the sidewalk on the side of the school building, then let your children out of the car. They can safely walk alongside the building while not in a lane of traffic. This also allows several cars to empty at once and move on, creating spaces for a whole new line of cars. This moves the traffic more quickly.
4. While waiting in line, but BEFORE you get to the sidewalk alongside of the building, give your children their hugs and kisses, make certain they have their backpacks, instruments, lunches and lunch money, etc., so that when you get to the building, they may quickly exit your vehicle.
5. **Please do not drop your child off anywhere other than the designated drop off point.** In the past some parents dropped off their child in the teacher parking area in order to save time waiting in line. The problem with this is that the child is then forced to cross through moving traffic increasing the possibility of an injury.
6. And finally, please cooperate with our FBISD campus police officer. Observe the barricades he sets out to direct traffic. **He is working diligently trying to help keep your children safe while still keeping the traffic moving.**
