

## Dear Family,

We're excited to report that your child is using **EasyTech® by Learning.com** to develop technology skills and enhance learning across the curriculum. With EasyTech, students learn to select and use the right technology tool for any project. And, at the same time, EasyTech helps your child meet national technology standards and develop skills that will help them throughout their education careers and beyond.

Because we realize the importance of building computer skills, Walker Station has decided to support student development of keyboarding by using **EasyTech®** at home.

## Logging in

Visit [www.learning.com](http://www.learning.com).

Use the following username, password, and district to access **EasyTech®**. Upon logging in, you will see the keyboarding lessons available for that grade. Once your child has shown mastery on one grade level's keyboarding lessons, feel free to try another grade's content. Students can practice these lessons as many times as needed to gain the proficiency needed to be successful with technology.

## System Requirements

For EasyTech to work properly, your computer should have the following:

- an internet connection (56k Modem or better)
- a browser:
  - Internet Explorer 5.5, SP 2, or later
  - Netscape 7.0 or later
  - Safari
- JavaScript enabled
- at least 64 MB RAM
- the Macromedia Flash™ plug-in, version 7.0 or better
- the Adobe Acrobat™ reader, version 5 or better
- Windows 98, Macintosh OS 9, or better
- speakers or headphones (required)

If you have any questions about EasyTech, please refer to the Learning.com website at

[www.learning.com](http://www.learning.com).
