

Pardon our Mess

CME is getting a new roof this fall! We are very excited about the new addition. But with progress, there always comes some inconvenience. We may hear some strange noises, smell some unusual smells, and may have to walk around some work areas...but when it is all through; we will have a brand new roof. It should take approximately 4 months to complete...Thank you to all Tigers that are taking it all in stride! The end result will be well worth it!
