

How Do I Know if it's Going to be a Rainy Day?

Rainy Day Dismissal

1. Moderate to heavy rain is present at 2:45 pm.
The large orange flag will be flying on the flag pole.
2. Anytime lightning or thunder occurs.
3. The temperature is 69 degrees or below **and** precipitation is present.

Parents are urged to take the initiative and monitor the weather forecasts and make a plan **before** your student leaves for school. If appropriate, make sure your child is equipped with the necessary rain gear. Although we will do our best to make sound decisions concerning dismissal, we cannot control the weather.

No changes in dismissal will be made after 2:45 pm. We need your help by planning in advance to ensure the safety of our students.
