

Sugar Land Middle School Career Day Invitation

Career Day for all eighth grade students will be held February 19, 2016. Middle school is an appropriate time to ask students to think about their career ambitions and short-term goals for high school. Students are provided with an opportunity to be exposed to information about different career choices. On Career Day students listen to speakers from various professions, motivational speakers and attend a Career Educational Fair including representatives from local businesses and professions. Companies are invited to set up engaging, interactive, hands on displays for students. Although this is an eighth grade event we would like to see participation from parents of all grade levels.

Please select an area that you can assist with, print clearly and return to Mrs. Seright or Mr. Goodwin as soon as possible.
