ELECTRONIC DEVICES AND TECHNOLOGY RESOURCES / DIGITAL CITIZENSHIP

Fort Bend Independent School District makes a variety of communications and information technologies available to students through computer/network/Internet access. These technologies, when properly used, promote educational excellence in the District by facilitating resource sharing, innovation, and communication. Illegal, unethical or inappropriate use of these technologies can have dramatic consequences, harming the District, its students and its employees. These Digital Citizenship Guidelines are intended to minimize the likelihood of such harm by educating District students and setting standards which will serve to protect the District. The District firmly believes that digital resources, information and interaction available on the computer/network/Internet far outweigh any disadvantages.

MANDATORY REVIEW

To learn proper computer/network/Internet use and conduct, students are required to review these guidelines at the beginning of each school year. All District students shall be required to acknowledge receipt and understanding of all guidelines governing use of the system and shall agree to allow monitoring of their use and to comply with such guidelines.

The parent or legal guardian of a student user is required to acknowledge receipt and understanding of the District's Digital Citizenship Guidelines as part of their review of the Parent and Student Handbook. The consent form is mandatory for Digital Citizenship during new student registration and upon entering grades six and nine. The consent selection remains in place during subsequent years unless the parent elects to resubmit. Campuses must provide training on the Digital Citizenship Guidelines to all students.

DEFINITION OF DISTRICT TECHNOLOGY SYSTEM

The District's computer systems and networks (system) are any configuration of hardware and software. The system includes but is not limited to the following:

- Telephones and voicemail technologies
- Email accounts
- Servers
- Computer hardware and peripherals
- Software including operating system software and application software
- Digitized information including stored text, data files, email, digital images, and video and audio files
- Internal or external accessed databases, applications, or tools (Internet- or District-server based)
- District-provided Internet access
- District-filtered Wi-Fi
- New technologies as they are identified

AVAILABILITY OF ACCESS

Acceptable Use
Computer/Network/Internet access used with District provided devices and/or personally owned devices will be to enhance learning consistent with the District's educational goals. The District requires legal, ethical and appropriate computer/network/Internet use by all students regardless if the use is for an academic class requirement and/or personal use.

Privilege
Access to the District's computer/network/Internet is a privilege, not a right, and may be revoked if abused. Any use described below is deemed "acceptable" and consistent with the Fort Bend ISD Digital Citizenship Guidelines for Technology but acceptable uses are not limited to the list below:

- Use is for educational purposes during the school day.
- Users will comply with all software, licenses, copyrights, and all other state and federal laws governing intellectual property.
- Use is limited to the student's own individual account. Students should not share network login information with others or use another person's login information to access the network or computer.

ACCESS TO COMPUTER/NETWORK/INTERNET

Access to the District's electronic communications system, including the Internet, shall be made available to students for instructional purposes. District computers and Wi-Fi (available for students who bring their own personal telecommunication devices) have filtering software that blocks access to visual depictions that are obscene, pornographic, inappropriate for students, or harmful to minors, as defined by the federal Children's Internet Protection Act (CIPA). Filtered Internet access is provided to students as defined by CIPA.

Student Access
Computer/Network/Internet access is provided to all students as defined by the parent selection on the yearly consent form as part of the Student/Parent Handbook. Student Internet access will be under the direction and guidance of a District staff member. Students may also be allowed to use the local network and Wi-Fi with campus permission using guidelines outlined in this document.

Use of Personal Telecommunication Devices, Including Mobile or Cellular Telephones
The District believes technology is a powerful tool that enhances learning and enables students to access a vast amount of academic resources. The District's goal is to increase student access to digital tools and facilitate immediate access to technology-based information. On an as available basis, students will be provided access to a filtered, wireless network through which students in grades two through twelve will be able to connect personal telecommunication devices to a designated network. Students using personal telecommunication devices must follow the guidelines stated in this document while on school property, attending any school-sponsored activity, or using the Fort Bend ISD networks.

The possession of a mobile telephone or any device capable of capturing images during a state assessment will result in the state assessment not being scored. Students found in possession of a mobile telephone or any device capable of capturing images, during a state assessment, may be required to retest (grades 5 and 8 reading and mathematics and any EOC exam).

If a student uses a telecommunication device during a time or place in which authorization to use has been denied, the device will be confiscated by a teacher or administrator. Upon the student's first or second violation, the parent may pick up the confiscated device after a payment of $15 is made to the campus activity account fund. All payments made to the campus activity account fund will be used for activities that directly benefit FBISD students at the campus the funds were collected. If the student has a third violation during the school

year, the device will be confiscated and turned over to the campus administrator. The parent may pick up the device at the end of the school year after a payment of $15 is made to the campus activity fund.

Confiscated telecommunications devices that are not retrieved by the student or the student's parents will be disposed of after the notice required by law. [See policy FNCE.]

In limited circumstances and in accordance with law, a student's personal telecommunications device may be searched by authorized personnel. [See **Searches** and policy FNF.]

Any disciplinary action will be in accordance with the Student Code of Conduct. The District is not responsible for damaged, lost, or stolen telecommunications devices.

Designated Instructional Areas
Students in grades two through twelve are allowed to bring personal telecommunication devices that can access the guest filtered wireless Internet, as available. Students will be allowed to use the device for educational purposes in a digitally responsible manner.

Designated Non-Instructional Areas/Times
Students in grades two through twelve are allowed to bring personal telecommunication devices that can access the guest filtered wireless internet, as available. Students will be allowed to use the device as determined by the campus.

Security
A student who gains access to any inappropriate or harmful material is expected to discontinue the access and to report the incident to the supervising staff member. Any student identified as a security risk or as having violated the Digital Citizenship guidelines may be denied access to the District's networks. Other consequences may also be assigned. A student who knowingly brings prohibited materials into the school's electronic environment will be subject to suspension of access and/or revocation of privileges on the District's networks and will be subject to disciplinary action in accordance with the FBISD Discipline Management Techniques and Student Code of Conduct.

Content/Third-Party Information
Students and parents of students with access to the District's networks and resources should be aware that use of the resources may provide access via links to outside material not yet reviewed or approved by the District.

Subject to Monitoring
No District computer/network/Internet usage shall be considered confidential and is subject to monitoring by designated staff at any time to ensure appropriate use. Students should not use the computer system to send, receive or store any information, including email messages, that they consider personal or confidential and wish to keep private. All electronic files, including email messages, transmitted through or stored in the District computer system and networks will be treated no differently than any other electronic file. The District reserves the right to access, review, copy, modify, delete or disclose such files for any purpose. Students should treat the computer system like a shared or common file system with the expectation that electronic files, sent, received or stored anywhere in the computer system, will be available for review by any authorized representative of the District for any purpose. Personal telecommunication devices are subject to examination in accordance with disciplinary guidelines if there is reason to believe that the Digital Citizenship guidelines have been violated.

RULES FOR RESPONSIBLE DIGITAL CITIZENSHIP

Fort Bend Independent School District offers students access to a computer, District network and the Internet. District students are bound by all portions of the Responsible Digital Citizenship guidelines. A student who

knowingly violates any portion of the Responsible Digital Citizenship guidelines will be subject to suspension of access and/or revocation of privileges on the District's system and will be subject to disciplinary action in accordance with the District's Discipline Management Techniques and the Student Code of Conduct.

The District provides a web filtering software to protect students from accessing inappropriate material. While the purpose of the District network is to use Internet resources for constructive educational goals and instructional activities, no web filtering software can provide 100% protection. The District strives to provide a safe online environment for all students and to protect them from inappropriate content. We will constantly monitor our system and implement new technologies that will strengthen the safeguards currently in place. FBISD believes however, that the educational and instructional benefits that faculty, staff, and students derive from access to the Internet far exceed any disadvantages associated with this privilege.

By utilizing a variety of technological resources, including the Internet, Intranet, hardware, and software, the Fort Bend Independent School District is expanding educational opportunities for all stakeholders. With this opportunity come responsibilities regarding responsible digital citizenship. Each Fort Bend Independent School District user is expected to act in a responsible, ethical, and legal manner, in accordance with the missions and purposes of the networks used on the Internet, Board Policy, and with the laws of the state of Texas and The United States.
