Fort Bend Independent School District Gifted & Talented Program 2016-2017 Referral for Testing Form

The Gifted & Talented Program is designed to meet the unique educational needs of academically gifted students. These students perform or have the potential to perform at a remarkably high level, beyond the performance of their peers. Approximately 3-5% of the population is gifted. Many students are high achievers but are not gifted. High achievers make good grades, do very well on the STAAR test, and work hard in school. These students' needs for academic challenge can be met in the regular classroom, rather than through the GT program.
