Research shows students' annual achievement in math and reading doubles when taught by teachers who utilize Atomic Learning's online technology integration-focused professional development resources including those within Atomic Learning's signature solution-Atomic Integrate.

Atomic Integrate includes:

- Video tutorials on 250+ software applications and tools
- Training Spotlights on highly-relevant Ed tech topics
- Big-picture Workshops on Avoiding Plagiarism, Effective Presentations, The Social & Interactive Web, and more
- Standards-aligned projects for seamless integration
- Focused resources on implementing a mobile initiative
- Lessons addressing the technology components of Common Core State Standards
- Certificates of Completion to track training commitment
- ISTE* Standards and technology skills assessments to measure individuals' ability to use and apply technology
- 24/7 online access for faculty, staff, students and parents
- Mobile-compatible website for easy access to all training resources
- Reports and tools to assign training and monitor progress
- Integration tools, including LTI, to streamline access
- On-going implementation support
- Option to upload training with upgrade to Atomic Integrate+

With Atomic Integrate, it's never been easier to train on technology and encourage classroom integration. It's efficient, effective, affordable-and available to all faculty, staff, students and parents from school or home.

Visit www.fortbendisd.com/Page/971 to learn more about the resources and tools included in the Atomic Integrate solution.
