

Career Day Program

Student Recap Form

Putting It All Together

You have heard a lot today about different careers and planning for High School. Before it all becomes a memory, why not take a moment and capture your thoughts...

Of the careers and jobs I heard about today, I would rate jobs for me as...

Not for me! (Write the name of each occupation where you see it fits on this scale.) Awesome!

My ideal job would have...

More of these characteristics	And Less of these...

Hint: Things like Work Hours and Location (e.g. what city, indoors or outdoors), Type of Work (e.g. working with your hands, being your own boss, using computers), Opportunity to Travel, Use of Math, Science, History, etc., Working with the Public...

When planning for High School, I want to think about...

Preparing for a College degree in: >	Extra-Curricular Activities (Hint: School Newspaper, Debate, Sports, Music or Dance Lessons, JROTC, Clubs, Scouting...)
Special classes/electives I should take:	
	Work Experiences (During of after High School)
Hint: Courses in Languages, Computers, Biology, Industrial Tech., Journalism, Business, Art, Theater, Band, Agricultural Science, PALs, Tech Ed., one of the Academies (e.g. TV Production)...	Hint: Examples might be volunteering at a hospital or a zoo, working in a store or repairing automobiles, summer job as a camp counselor.

I still have questions about...	...and who I might ask...
