

A NOTE FROM THE ASSOCIATE SUPERINTENDENT:

Welcome to the Technology Division Web Page. Maintaining this site provides another opportunity to communicate with district personnel about technology.

You can find the *District Technology Plan* here as well as the latest issue of *Tech Sketch*, the district Technology Newsletter.

This site will be constantly “under construction.” Aside from some additional features that Technology is already working on, we will also add informative messages or announcements when—through your questions and conversations—it becomes apparent that a certain type of information needs to be communicated.

I hope when you leave here, you will know a little more about district technology-related topics than you knew when you arrived. Again, *welcome*, and stay in touch—come back and visit our technology neighborhood soon!
