# GT Learning Plan Goals

The GT Learning Plan (GTLP) is a written record of gifted and talented programming utilized with each gifted child and provides opportunities for students to develop academic and affective (social and emotional) goals.

The GTLP provides opportunities for students/parents to develop academic and affective (social and emotional) goals that are monitored by the teacher and student.

## **Sample Goals:**

### **Academic:**

As part of developing an effective organizational system, my child/I will complete and submit their independent reading logs, 95% of the time during the first semester.

By the end of the first semester, I will create a realistic fiction chapter book based on an important place in Texas.

### **Affective:**

In order to meet more people at my school, I will join one new extracurricular club and attend at least 90% of the meetings between now and the end of November. (*affective skill: relationship skills, social interaction*)

Each week, I will use the Houston Chronicle online to look up and share a local current event during GT intervention time to become more aware of what is happening in my community. (*affective skill: social awareness*)
