

College Career and Military Readiness

The Texas Education Agency (TEA) has defined a set of indicators that students can earn to be considered college, career, or military-ready. Students who meet ONE of these CCMR indicators are considered "CCMR-met."

CCMR "met" determines whether a student takes a remedial class in college, has work-related skills and interests, and has potential success in the military, or uses the industry-based certification to improve overall employability straight out of high school.

CCMR readiness indicators include:
