

FBISD IBMA EXCLUSIVE OPPORTUNITIES

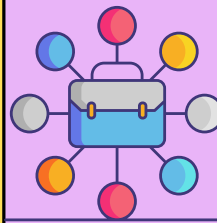

APPLICABLE KNOWLEDGE

No matter what career pathway you choose to embark on, the knowledge and skills that IBMA students obtain apply to every work or life situation. In addition, our courses place IBMA students ahead of their peers in courses including macroeconomics or microeconomics.

SPECIAL ENRICHMENTS

As students progress through high school, it becomes ever-so-critical for them to learn valuable life skills that will help them navigate the vast world of adulthood. The IBMA invites professional speakers and holds workshops to provide students with an advanced perspective of the real world. Learn how to write the perfect resumé, how to navigate loans and taxes, how to ace your interview, etc!

FIND YOUR COMMITTEES

Do you like planning events? Reaching out to others? Or designing? In IBMA, we recognize our students' various strengths and provide a variety of committees for IBMA students to work together to create and execute plans both inside and outside our school walls while perfecting their craft.

PROFITABLE CERTIFICATIONS

IBMA students learn to navigate wide-scale information systems such as Microsoft Word, Excel, and/or PowerPoint. Once mastered, students take a certification exam for each system to become certified MS Specialists. Certifications make IBMA students more qualified and desirable to companies in search of applicants with employable computer skills, resulting in higher call-back rates and pay.

CREATE YOUR OWN BUSINESS

Implement what you learn in IBMA by teaming up with other IBMA students & building your very own business from the ground up. Compete with other young entrepreneurs in a final business pitch to earn start-up money from entrepreneurial investors. .

UNIQUE FIELD TRIPS

Discover a wide array of possibilities around you on exclusive IBMA field trips. Join us as we tour universities, major tech companies, courthouses....

AND MANY MORE!
