## P.E.

From Coach Lev- Over the next few weeks in Physical Education, our K-5 students will be working on jumping and landing skills! These fundamental movement skills are an important part of developing coordination, balance, strength, and body control.

Jumping and landing are building blocks for many activities and sports such as basketball, volleyball, gymnastics, track and field, and playground games.

Learning how to land safely also helps prevent injuries by teaching students how to absorb force properly.

## Health

Coach Hinton- Health- Students are learning the importance of eating healthy foods. We are talking about which foods help our bodies and brains, which foods are not as healthy, and which foods should be eaten in moderation.

## Club News

**StuCo** will meet March 30th.

**Coding** will meet March 3rd.
