Week of May 8th Recap

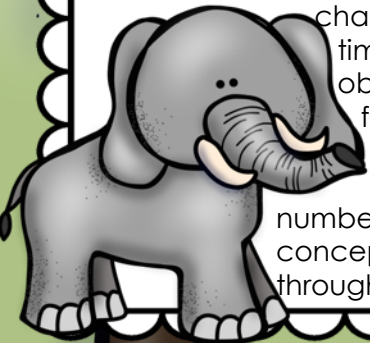

We had great week following our end of the year calendar. The rain did not interfere with our learning and fun. We enjoyed ice cream, played games using flashlights, wore hats, kicked off our shoes and ended the week with laughter and lollipops.

What We are Learning

We will continue to learn about shadows and day and night.

The students will learn the sun gives us natural light and heat and what sources of artificial light are available when the sun isn't. The students will learn that shadows are made when something blocks the light source and how shadows and reflections change based on the light source, time of day, and position of the object blocking the light. We will focus on alliteration.

We will be reviewing letters, numbers, geometry and other concepts the students learned throughout the year.

Communication

Please remember to send a snack and water bottle with your child daily.

Our end of the year program will be Monday, May 22 at 8:30 am. We hope you are able to join us for this celebration.

If your child has a summer birthday and you would like to send cookies, cupcakes or something similar so that they are able to celebrate their birthday with their classmates, please contact your child's teacher so that a date can be arranged.

Reminders

May 19: PGE Talent Show: 6 – 7:00 pm

May 22: End of the Year Celebrations 8:30 am

May 19th: Spirit Day/School Store – Wear your PGE spirit shirt, field trip shirt or a white or blue shirt
