

ROAR-SOME WEEK OF DINOSAURS!

We had a great time learning about dinosaurs this week!

We did a little bit of "research" on the **Tyrannosaurus Rex**, **Velociraptor**, and **Triceratops**.

- 🌿 The students pretended to be paleontologists while using Magna-Tiles to build dinosaurs.
- 🦖 They built dinosaur puzzles.
- 👉 Made dinosaurs with their names.
- 🦖 Practiced writing CVC words.
- 🌿 We ended the week with Field Day. The students had a great time getting wet and participating in all the activities!

Building dinosaurs!

Dinosaur puzzles!

Names & dinos!

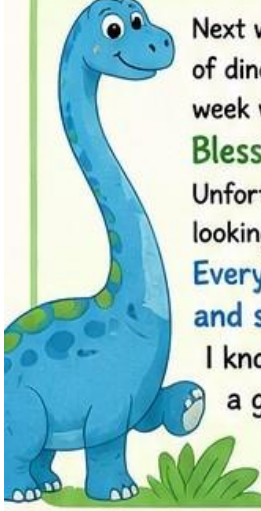

Writing CVC words!

Field Day fun!

What's Next? 🌿

Next week, we will continue our studies of dinosaurs. We are hoping to end the week with our field trip to **Blessington Farms** on Friday. Unfortunately, the weather isn't looking very good as of now. Everyone, please do a "sun" dance and send the **sunshine** our way! I know the students will have a great time.

SAVE THE DATE!

End-of-School Celebration!

Thursday, May 28

9:30 a.m.

Please look for a SignUpGenius with items needed to help make this day special for the students.

I apologize that this information is coming later than planned. I had hoped to discuss it with parents during our field trip on April 24, but we were unfortunately rained out. Today was the first opportunity I had to speak with parents.

THANK YOU! 🌿

Thank you for all of your help and support this year. I am so proud of how much the students have grown, and I know they are ready for **Kindergarten** next year! 🌿
