

TSI Resources

The following items are available to help you prepare for the sections of the TSI you will need to take. Additionally, please speak to your P-TECH teachers or counselor about any specific areas of concern you have.

<u>Resource Name & Link</u>	<u>Description</u>
HCC TSI Practice Tests HCC TSI Math Review HCC TSI Reading Review HCC TSI Writing Review	Review materials that include videos, practice questions, and strategies for passing each section of TSI.
Accuplacer Study App	Once you create a free account, you will be able to review content for the test, and take practice tests.
Accuplacer-College Board Sample Questions	The PDF provides practice questions for the TSI exam. The answers provided at the end give a rationale for the answer.
Accuplacer Practice	This site provides free resources that include the types of questions and essays you will see when you take the ACCUPLACER test.
TSI Practice Test	These online practice tests are interactive with automatic scoring. Detailed explanations are included along with each answer, so you can learn from your mistakes.
Test-Guide	
Mometrix Test Preparation (Math)	The video works through 25 practice questions, breaking down each problem so that you are able to learn the concept and make connections to information you already know.
Mometrix Test Preparation (Writing)	The video goes over each major component of the writing section with detailed explanation of the information and practice problems.
Mometrix Test Preparation (Reading)	The video goes over each major component of the reading section with detailed explanation of the information and practice problems.
Mometrix TSI Tests	This site contains free review materials and practice tests to help prepare for TSI.
Lone Star College Math Review Manual	Although this guide is from a different educational institution, it contains test-taking strategies, review of math content, and additional links to sites for more information.

[Interpreting Your TSI Scores](#)

This booklet will explain how to interpret your scores and determine what you need to work on to be successful.
