

February 10, 2026

Thank you for your continued engagement in Fort Bend ISD's Long-Range Boundary Planning process.

As part of our ongoing commitment to transparency, the district has posted a Long-Range Boundary Planning Survey Dashboard that allows stakeholders to review results from the January 2026 district-wide survey related to proposed boundary plans and elementary school closures.

The dashboard provides a clear visualization of survey results, including:

- Levels of support
- Prioritization of Policy FC (Local) Decision Principles
- Primary advantages, concerns, and stakeholder identified supports

We encourage you to take time to review the dashboard and remain engaged as this multi-year planning process continues. Stakeholder input plays an important role as the district works to plan responsibly and support students and schools across FBISD.

Visit the dashboard at fortbendisd.com/attendanceboundaries.

Thank you for your continued partnership.
