

BUILT TO PERFECTION

GT Family Series Virtual Challenge

October 2021

"BUILT TO PERFECTION" OVERVIEW

The **"Built to Perfection"** challenge will allow gifted students the opportunity to use creative thinking and critical thinking skills while developing an authentic product.

"BUILT TO PERFECTION" OPTIONS

Students must choose one activity from below to complete:

- Design and build a model of your future house. Consider beginning by creating a blue print with your design. Use a variety of materials to build the model of your future house.
- Build a model of any world famous landmark/building of choice (For example...Eiffel Tower, Leaning Tower of Pisa, Colosseum, Taj Mahal, Gateway Arch, Louvre Museum etc). Use your creativity and original materials to replicate a structure from history.
- Build a model of a rainforest. All four layers (emergent, canopy, understory, and forest floor) must be included when building your model. Be sure to include the unique characteristics of each layer.
- Build a collection of photos about one topic or an area of interest. Try capturing/locating unique photos that inspire your imagination and creativity.
