

Steps to get Respondus LockDown Browser Installed on a FBISD Laptop

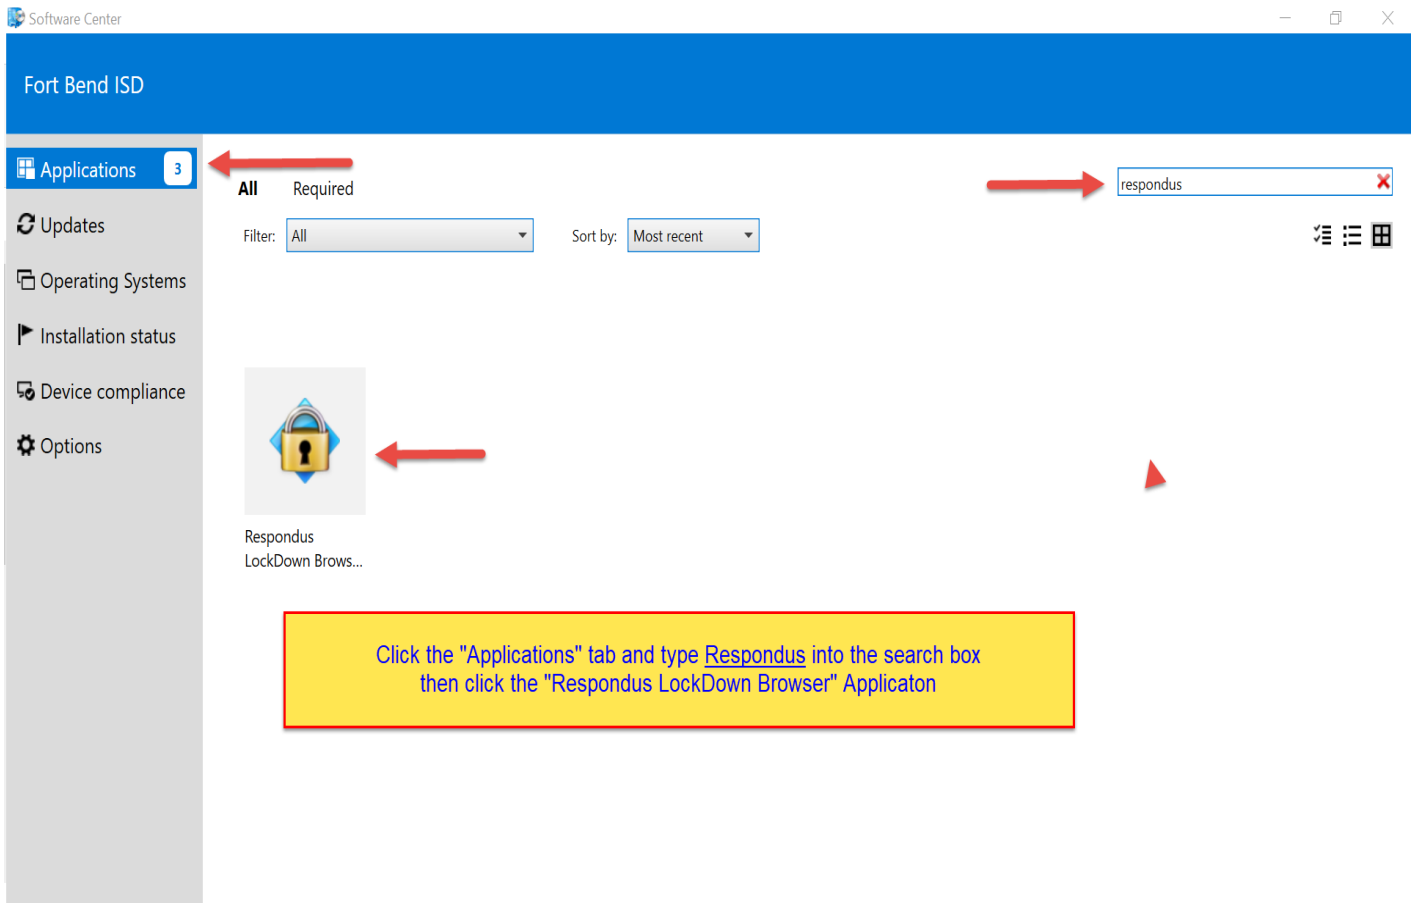

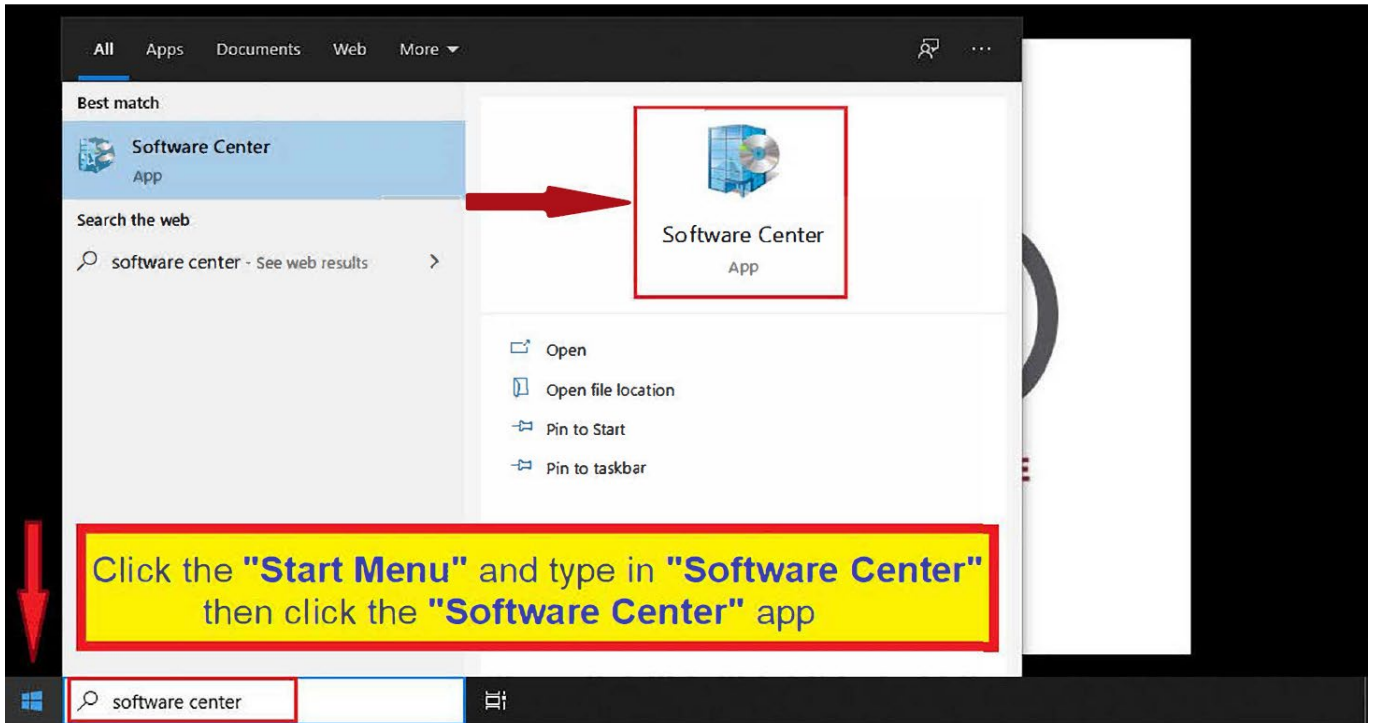

Once logged into the FBISD Student Laptop, you will be prompted to login to Global Protect with the Portal being `viator.fortbendisd.com` as seen below. Sign in with your 6-Digit lunch number not including the leading 0 and student password. This password is the same as what you use to log into the computer and click on Sign In. Once successfully logged in you will see Connected.

Global Protect should be connected at all times during school hours. To verify during the day if you are still connected, you can click on the ^ at the bottom right of your desktop and see the icon with the world with check box on it. Hover over it and it will display Connected.
