

COLLABORATIVE COMMUNITIES

Summary 2022 - 2023

Strategy and execution with a clear line of sight was key in successfully reaching our primary goal—reaching more students and providing them with rich experiences and needed supports throughout the academic school year. As a result of Collaborative Communities strategic prioritization and visioning efforts, thousands of students have been impacted through the variety of programs and initiatives led by the department. The following provides a snapshot of the 2022-2023 highlights.

202,246

volunteer hours were tracked and/or reported by District campuses and volunteers

29,722

students were assisted to receive clothing, shoes, food, school supplies, holiday support and toiletries

11,400

school supply kits were disseminated to nearly 80% of campuses across the District

6,882

students were assisted through the exemplary partnership initiative across 9 campuses

2,900

families supported through food insecurity efforts coordinated with community collaborators

2,416

family courses and / or engagement opportunities were offered at Title I campuses

868

students received mentoring services through department scaling efforts and community partnerships

146

students and their families received gift and food items through Shared Dreams Holiday Cheer initiative
