

COLLABORATIVE COMMUNITIES

2024-2025 Impact

The 2024–2025 school year was defined by a purposeful and strategic focus on nurturing strong, lasting relationships within our engaged and diverse community. These connections are the cornerstone of our philosophy within the Department of Collaborative Communities. They enable us to launch new initiatives, align partnerships and collaboration efforts across district departments, and most importantly, build trust needed to lead meaningful work. At the heart of our work lies a singular goal: to deepen our impact and broaden our reach in support of every student in Fort Bend ISD.

223,900

volunteer hours were contributed, as reported by District campuses and volunteers

44,562

opportunities* were provided to students to receive basic needs (e.g., clothing, shoes, toiletries, etc.)

19,154

school supply kits were distributed to students

6,500

opportunities were provided to students through the exemplary partnership initiative across 11 campuses

2,672

family courses and/or engagement opportunities were offered at Title I campuses

1,454+

families supported through food insecurity efforts coordinated with community collaborators

1,306

students received mentoring services through department tracking and community partnerships

588

children received gift and food items through Shared Dreams Holiday Cheer initiative

3

new school names were established for the consolidation of two campuses and one new campus

1

attendance boundary established for the opening of an elementary campus

*Students may have received more than one opportunity.
