GREETINGS FROM OUR SUPERINTENDENT

Welcome to the FBISD Community Education Program's spring 2021 catalog!

Our commitment to promoting life-long learning has not wavered, and as always, we are excited to offer you a diverse range of courses for students and adults. As part of our year of FBISD Reimagined, classes will be taught online and face to face, in keeping with our District's health and safety precautions and protocols. In this way, we want to ensure that our community members feel comfortable and safe, while also enjoying a rewarding educational experience.

The Community Education Program continues its strong growth, in part, because of the excitement and passion that our instructors bring to each course. These individuals, so many of them neighbors and fellow community members, find joy in sharing their gifts and talents with others, and I am so appreciative of their time and dedication to this program.

As always, there is something for everyone in this term's catalog, so I invite you take a look. See you in class!

Sincerely,

How to Talk to Your Child's Teacher

The partnership between teachers and parents is essential to help children succeed in school. Teachers are normally eager to hear from parents and learn more about each student in order to help him or her have a successful experience at school. However, some parents may be reluctant to talk to their child's teacher, especially if they do not speak English or English is not their first language. This webinar aims to provide insight on strategies you can implement so the language barrier does not stop you. Bring a list of challenges and concerns and we will do our best to give you some ideas on how to overcome them. The webinar is free and requires registration. A class invitation and link will be emailed to participants prior to the start of the online session.
