

Fort Bend Independent School District

Hunters Glen Elementary

2023-2025 Campus Improvement Plan

Accountability Rating: A

Distinction Designations:

Academic Achievement in English Language Arts/Reading

Top 25 Percent: Comparative Academic Growth

Top 25 Percent: Comparative Closing the Gaps

Postsecondary Readiness

Mission Statement

Fort Bend ISD Mission: Fort Bend ISD exist to inspire and equip all students to pursue futures beyond what they can imagine.

Hunters Glen Elementary Mission: Hunters Glen Elementary students are inspired to work towards achieving personal excellence, which leads to becoming productive citizens in our society.

Vision

Fort Bend ISD Vision: Fort Bend ISD continuously improves teaching and learning by developing effective staff and building scalable systems.

Hunters Glen Elementary Vision:

To establish a culture that encompasses collective efficacy, intentional scaffolding, and meaningful relationships that promote academic success.

Value Statement

The vision of Hunters Glen Elementary is to encourage, engage, and motivate ALL students to exemplify behavior and academics that leads to success.

Comprehensive Needs Assessment

Demographics

Demographics Summary

Hunters Glen Elementary is becoming a diverse campus. As a campus, the Hispanic and white subpopulation groups have increased over the past five (5) years on campus. The Special Education population has also continued to increase on the campus due to student identification for needing learning services at the campus level. Student identification for Dyslexia services has increased on the campus which means more students are able to be serviced. Student identification has increased each year. Attendance data for the campus is increasing since 2020-2021, which was a Covid-19 Remote year. Home visits and additional attendance incentives have contributed to helping to identify needed support for students with high levels of absences. While attendance has increased at the campus and we are meeting attendance goals, there are weeks where we do not meet the district attendance goals which impact student learning when students are not available or are attending class consistently. Campus reports also determined that there was a high occurrence of tardies given there is no transportation provided to neighborhood students. The campus mobility rate is higher than the state average as well as the district average, the current mobility rate is 18.22% which is higher than the district average and state averages. This is a decrease in the year before which had 23.53% but still not in alignment with the state or district.

Hunters Glen EL	51	302	16.89%	60	255	23.53%	49	269	18.22%

Demographics Strengths

Strengths:

- Campus demographics becoming more diverse
- Diverse staff that can identify with the campus families
- Hispanic subpopulation increasing
- Community is a transitional neighborhood
- More students identified to receive special education services
- Overall students are coming to campus

- Home visits and phone calls from SEL team are contributing to students coming to campus
- Our community offers Metro Services to assist students getting to and from school

Areas of Focus:

- Meeting the district attendance goal consistently
- Rewarding attendance regularly, students for coming to school and classrooms that have met attendance goals

Problem Statements Identifying Demographics Needs

Problem Statement 1: Hunters Glen Elementary does not always meet the district's attendance goal consistently. **Root Cause:** Some students may get sick more frequently and have chronic illnesses such as asthma and miss school. Some of our students have transportation issues due to the campus being a neighborhood school and not having bus service and most of the students are car riders.

Problem Statement 2: From the classroom level, students are not always rewarded regularly for meeting attendance goals. **Root Cause:** Perceptions of awards are sometimes tied to financial capacity and the lack of funds contribute to students not receiving rewards more consistently.

Student Learning

Student Learning Summary

In math, students can compose and decompose, compute addition and subtraction problems, round to the nearest ten and hundred, count money, generate patterns, identify fractions on a number line, create and analyze arrays. However, in reading, some of the third-grade students struggle with reading at grade level. In math, two step multiplication and or division problems, creating equivalent fractions, fact fluency is problematic for quite a few of our students. Another area to focus on is the continual and consistent need to allow students the opportunities to provide feedback to their peers as well as teachers providing immediate feedback to students. Making it a daily habit would ensure that students become flexible thinkers and learners and provide confidence in their ability to justify their thinking.

Behavior Issues: Implement two mindful moments daily, perhaps around attendance time and in the afternoon to reset student thinking and revisit respect agreements. During grades 2nd- 5th Literacy, making inferences on a broad level, while maintaining the understanding across various genres has been incorporated in most lessons but has been difficult to retain. Throughout the school year, the data has shown that students performed better with Fiction genres, than with informational, poetry, drama, paired selection, and literary non-fiction. There was a decrease in student performance amongst making inferences in other genres; requiring students to think on a higher-level using information read to ensure accurate inference responses. For example, in 5th grade in the Fiction unit of Reading Skills Checks students scored 81%, 73%, 86%, on inferences, however there was a decrease in performance when there was a switch in genres; such as informational. On the first few informational Reading Skills Check, students scored a 68%, and 56%. The notices were the change in genre, and the rigor of the inference question. While students have demonstrated an appropriate level of comprehension, there is still a need for improvement of literacy. Reading Interventionist make a huge impact on student performance by pull out instruction based off of student needs and Renaissance 360 data. Instructional coaches make a huge impact as well on student performance; as they plan with the teacher to ensure effective instruction is implemented in the classrooms while micro-modeling, holding reflective conversations, and teaching in tandem. With the support of both the reading interventionist and the instructional coach, this partnership will increase the success of HGE's Literacy Department while placing the emphasis on making inferences on a rigorous level.

Areas of growth would include students being able to write relevant responses and providing text evidence to support their thinking with a variety of texts. Students are showing progress on REN360. Students are showing consistency with the skills that they know, but will need additional support analyzing non-fiction text, responding to reading in written form and comparing and contrasting different genres through paired selections. The intervention instructional model is limited to the spaces allotted for participants, however the number of students in need of urgent intervention exceeds that allotment.

Based on preliminary STAAR results, our students dropped in most of our areas especially 3rd grade math and 4th grade reading. We will need to provide extra support through interventions and intentional tutorials to support closing this gap. We will have to also be sure to include a system that will require praise and reward for effort and gains. We will need to purchase instructional materials in reading, math, writing and science to support instruction and hands-on learning for our students. Our outclass classes also support instruction in the content area and will need resources to help intervene and close gaps. The more detailed students learning is through instructional materials and resources to more they will become successful and sustain their learning.

STAAR Data (Preliminary) 2023

Student Learning Strengths

Strengths:

- HGE Grades 2-5 and Special Ed have successfully initiated and are implementing instructional practices that continue to support student ownership of learning & behavior.
- 2nd grade is showing progress for reading level indicators on BAS from BOY to MOY. Majority of students are meeting grade level expecting or exceeding grade level expectation at MOY
- 4th grade 59% of students performed at or above 50% on ALL STAAR Skills check in reading
- 57% Sped population performed at or above 50% on ALL STAAR Skills check in reading.

Areas of Focus:

- Development of instructional practices to cultivate student ownership of learning & behavior, grades 2-5, SPED, ELL.
- (Reading) Some of the third-grade students struggle with reading at grade level. (Math)Two step multiplication and or division problems, creating equivalent fractions, and fact fluency
- The continual and consistent need to allow students the opportunities to provide feedback to their peers as well as teachers providing immediate feedback to students.
- Grades 2nd- 5th Literacy would be making inferences on a broad level, while maintaining the understanding across various genres.
- Students will need to dive deeper into analyzing non-fiction text to increase reading comprehension and strengthen skills such making inferences and analyzing paired selections

Problem Statements Identifying Student Learning Needs

Problem Statement 1 (Prioritized): Due to a variety of reasons, teachers engage in ineffective instructional learning practices. **Root Cause:** Teachers are not completing or implementing the full learning cycle in their content areas.

School Processes & Programs

School Processes & Programs Summary

Hunters Glen has a variety of different school processes and programs. Our campus strives to engage our students in activities that support them being well-rounded. To accompany student engagement and learning, we realize that it's essential for our staff to be provided with adequate professional learning so they in return operate at delivering a higher quality of instruction. We've afforded our students multiple opportunities to engage in after-school and in-school activities that support the whole child. Such clubs as National Honor Society, Girls on the Run, Coda Violin, Imagination Destination, Student Council, Boy Scouts, Girl Scouts, Art Club, Morning Yoga Club and Choir are clubs that are sponsored by our staff members and extended to our students. Students also had an opportunity to engage in our Mentor Program (PALS and All in Mentoring), Safety Patrol, and Science Fair activities. There are times when our students needed extended support academically. Some were identified at our TIER 2/3 levels while others benefited from our instructional practices that occurred at TIER 1. We provide science labs on Wednesdays and Math Labs on Mondays as well as Reading Labs on Tuesday and Thursdays. The labs were designed to provide a hands-on learning experience to students to deepen their understanding of the concept that correlated with the unit of study. Students that needed even more support were given an invitation to take part in our Super Saturday School Session where they would focus on TEKS that needed to be reviewed or spiraled accordingly. Time during the instructional day was also set aside for specific small group interventions that were conducted by our classroom teachers at TIER 1 and TIER 2 as well as our Literacy/Math Interventionist and Literacy/Math Coach. We also ensured to include our special subpopulation in our cycle. GT, Sped., ELL populations as well. We are also focusing on needing more High-Quality instructional resources to support not only student academics but social emotional learning as well.

School Processes & Programs Strengths

Strengths:

- Student mentoring program to allow students someone to confide in and talk to
- PBIS Reward System has decreased discipline
- Students are motivated to make better choices
- Increase in student academic scores due to small group interventions
- After School Program support students in making better choices to keep up their grades and behavior to stay in class
- Science and Math Labs provides students with more hands-on experiences and can support with targeting their academic needs
- Intervention system during the day supports closing the gap and supporting students with meeting grade level TEKS
- Teachers walk away from PD with intentional and specific strategies to instantly use in class.
- PD Sessions are intentional and address a wide variety of needs (academically and behaviorally)
- Staff that are present are active participants in PD sessions

Areas of Focus:

- Consequences for problem behaviors are defined clearly and consistently. (Schoolwide and classroom)
- Students experience high rates of academic success (> 75% correct)
- School includes formal opportunities for families to receive training on behavioral support/positive parenting strategies.
- More support is needed for TIER 3 students that have been identified as needing support academically and behaviorally.
- More academic HQ resources are needed around reading, math and science
- Need more rewards- need financial
- Could use more make and take activities (currently modeling and guided support)
- Need staff to attend in PD (everyone's not always on campus due to other district trainings)
- Need more real-world experiences such as field trips to expose students to a variety of outside, real-world situations.
- Offer more after school clubs

Problem Statements Identifying School Processes & Programs Needs

Problem Statement 1 (Prioritized): The campus needs to identify specific problem behaviors and assign the appropriate consequences to those behaviors so that the chances of success behaviorally and academically increases. **Root Cause:** Because there were more academic concerns than behavior, an academic focus took precedence over the behavior concerns, but now behavior stands out and is more visible and obvious.

Perceptions

Perceptions Summary

Parents and community partners are involved in the educational process and information is provided to parents. Stakeholders are included in decision making process for the campus and are informed on how they can be part of the process. During quarterly after school events, there has been an opportunity for community partnerships to participate and share information through the Health/Wellness & Winter Program. Parents indicated on the K12 Survey of their positive perception of the campus and its culture. parents view the campus as 44% excellent, 44% good, 11% fair, so overall 88% of parents have a positive perception of the campus. At this time, parents feel welcome entering their child's school. We have also received more community partnerships this year in comparison to the past; therefore, increasing our community and engagement. Parents feel that their child's school work is meaningful and relevant and that classroom instruction challenges students to think and problem solve. However, they feel that their child doesn't always take advantage after school clubs. They also feel that they aren't always in the know regarding community organizations that provide support to the campus. They would like for teachers to show students how lessons relate to life outside of the school. It would also be appreciated for feedback to be given to students in a timely manner.

Discipline Report

[illegible]

Perceptions Strengths

Strengths:

- There is a way to document student behavioral infractions and the type of events that take place on both Level I and Level II, currently there is not a concern with disproportionality rates due to the demographics of the campus and the DMV showing that 1.2 of AA students are represented.
- Parents feel as if they receive more communication
- Parents feel more welcome on campus
- Anyone parents came in contact with could help them with their problem.
- The school's learning standards and expectations are clearly explained to students
- Schoolwork is meaningful and relevant
- Classes challenge students to think and solve problems
- My child is being prepared to do well in the next grade or after graduation
- Student receive the individual support they need to prepare for the future
- My child is excited to go to school
- There is teacher, counselor, or other staff member to whom a student can go to for help with a school problem
- Student receive the individual support they need to prepare for the future
- My child is excited to go to school
- Students in this school are treated fairly regardless of their race, culture, religion, sexual orientation, gender, or disabilities
- My child is safe and secure at school
- Staff members and students treat each other with respect

Area of Focus:

- There has been an increase in student referrals compared to the previous school year with 33 coded discipline referrals in Skyward. The referrals are typically identified as Disruptive Behavior/Educational Environment and Inappropriate Physical Touch.
- My child takes an interest in the extracurricular activities and programs. Including fine arts, athletics, or clubs/organization
- Teachers successfully show students how lessons relate to life outside of school
- Teachers give timely and appropriate feedback about student work
- This school uses family input to improve instruction, programs, activities, and services provided
- I am informed about community organization that support students at this school
- The campus provides timely opportunities to engage in feedback prior to big decisions or changes

Problem Statements Identifying Perceptions Needs

Problem Statement 1: Students need to follow the rules of the classroom but there may be misconceptions causing the disruptive behavior in the educational environment. **Root Cause:** Rules in each classroom are not consistent with each other and students are having to adapt in each classroom which makes consistency more difficult to keep.

Problem Statement 2 (Prioritized): Student excellence and expectations may need to be increased and explained more regularly for students to be more successful at Hunters Glen. **Root Cause:** The students need a way to express their emotions and situations with the classroom to know they aren't alone so their emotions can be met with academic excellence

Problem Statement 3 (Prioritized): When there's a campus issue or activity, parents would like to be notified and kept abreast of happenings in a timely manner and notified of timely feedback on major decisions made on campus. **Root Cause:** Find multiple ways to communicate with parents and keep them abreast of campus happenings but ensure they're

in a timely manner

Priority Problem Statements

Problem Statement 1: Due to a variety of reasons, teachers engage in ineffective instructional learning practices.

Root Cause 1: Teachers are not completing or implementing the full learning cycle in their content areas.

Problem Statement 1 Areas: Student Learning

Problem Statement 2: The campus needs to identify specific problem behaviors and assign the appropriate consequences to those behaviors so that the chances of success behaviorally and academically increases.

Root Cause 2: Because there were more academic concerns than behavior, an academic focus took precedence over the behavior concerns, but now behavior stands out and is more visible and obvious.

Problem Statement 2 Areas: School Processes & Programs

Problem Statement 3: Student excellence and expectations may need to be increased and explained more regularly for students to be more successful at Hunters Glen.

Root Cause 3: The students need a way to express their emotions and situations with the classroom to know they aren't alone so their emotions can be met with academic excellence

Problem Statement 3 Areas: Perceptions

Problem Statement 4: When there's a campus issue or activity, parents would like to be notified and kept abreast of happenings in a timely manner and notified of timely feedback on major decisions made on campus.

Root Cause 4: Find multiple ways to communicate with parents and keep them abreast of campus happenings but ensure they're in a timely manner

Problem Statement 4 Areas: Perceptions

Comprehensive Needs Assessment Data Documentation

The following data were used to verify the comprehensive needs assessment analysis:

Improvement Planning Data

- District goals
- Campus goals
- Campus/District improvement plans (current and prior years)
- Planning and decision making committee(s) meeting data
- State and federal planning requirements

Accountability Data

- Texas Academic Performance Report (TAPR) data
- Student Achievement Domain
- Student Progress Domain
- Closing the Gaps Domain
- Effective Schools Framework data

Student Data: Assessments

- STAAR current and longitudinal results, including all versions
- STAAR released test questions
- Local benchmark or common assessments data
- State-developed online interim assessments
- Grades that measure student performance based on the TEKS

Student Data: Student Groups

- Race and ethnicity data, including number of students, academic achievement, discipline, attendance, and rates of progress between groups
- Economically disadvantaged / Non-economically disadvantaged performance and participation data
- Special education/non-special education population including discipline, progress and participation data
- At-risk/non-at-risk population including performance, progress, discipline, attendance, and mobility data
- Homeless data
- Gifted and talented data

Student Data: Behavior and Other Indicators

- Attendance data
- Mobility rate, including longitudinal data
- Discipline records

Employee Data

- Professional learning communities (PLC) data
- Staff surveys and/or other feedback
- Evaluation(s) of professional development implementation and impact

- T-TESS data

Parent/Community Data

- Parent surveys and/or other feedback
- Community surveys and/or other feedback

Support Systems and Other Data

- Budgets/entitlements and expenditures data
- Other additional data

Goals

Goal 1: FBISD will provide rigorous and relevant curriculum and deliver instruction that is responsive to the needs of all students

Performance Objective 1: By June 2024, Hunters Glen will improve the effectiveness of teachers improving and changing their instructional methods, to enhance academic performance through the implementation of intentional PD, an aligned curriculum and structured professional learning communities to close the achievement gap as evidenced through the indicators of success.

High Priority

HB3 Goal

Indicators of Success: Indicators of Success

Formative Evidence:

By October 2023, campus would have increase the implementation of intentional PD sessions, aligned curriculum and PLC opportunities that are tailored to students and teacher needs by 20%.

By December 2023, campus systems regarding PLC, curriculum alignment and pd opportunities would have increased to 50% completion rate based on the calendared schedules dates.

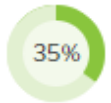

By February 2024, there will be an increased percentage of 75% of achievement gap systems, such as aligned curriculum, pd sessions attended, and plc meetings, implemented that allowed teacher leaders to acquire knowledge that would support their planning and student engagement opportunities in GT, SPED, EB, and At-Risk Populations.

Summative Evidence:

By June 2024, campus teacher leaders attendance and participation in targeted professional development sessions designed to strengthen instructional practices would have increased to 95%.

By June 2024, the implementation of structured PLC collaboration opportunity meetings, where teacher leaders discussed and planned student learning experiences, would have increased to 100% at the close of the year.

By June 2024, ensuring the alignment of targeted TEKS and district curriculum with student learning experiences would have increased to 100% as measured by lesson plans and long range planning meeting results.

Strategy 1 Details	Reviews			
<p>Strategy 1: HGE will conduct ongoing Professional Development sessions with an emphasis on instructional methods that support the improvement in teaching effectiveness.</p> <p>Strategy's Expected Result/Impact: This strategy will strengthen teachers instructional practices. Performance Objective 1 Problem Statements:

Student Learning
Problem Statement 1: Due to a variety of reasons, teachers engage in ineffective instructional learning practices. Root Cause: Teachers are not completing or implementing the full learning cycle in their content areas.

Goal 2: FBISD will provide a positive culture and climate that provides a safe and supportive environment for learning and working

Performance Objective 1: By June 2024, Hunters Glen will improve the communication system between teachers and students that will foster a positive relationship and collaboration while strengthening the campus's culture/climate and behavioral system through the implementation of research-based behavior system such as PBIS, targeted PD and student ownership of behavior structure that will impact student achievement and safety as evidenced through the indicators of success.

High Priority

HB3 Goal

Indicators of Success: Indicators of Success

Formative Evidence:

By October 2023, an increased percentage of 90% of teacher leaders will be receive training on ways to support the implementation of an intentional communication system established between students and teachers that would foster a positive school climate.

By December 2023, an increased percentage of 95% will show teacher leaders establishing a behavior system connected to PBIS and student ownership practices that would promote connectedness among stakeholders.

By April 2024, 98% of our staff will have an in-depth understanding of PBIS for behavior, ownership practices for clarity and the purpose for the intentional PD sessions and how together, those components promote a successful campus climate and culture.

Summative Evidence:

By June 2024, there will be an increase in the campus climate/culture survey by 20% from the previous year based on culture survey results.

By June 2024, an increase of 100% usage of PBIS components would be implemented to provide structure and a safe and supportive learning and working environment.

Strategy 1 Details	Reviews			
Strategy 1: HGE will conduct learning sessions on relationship building and communicating effectively with the student body based on the feedback received from our campus's student engagement survey. Strategy's Expected Result/Impact: There will be a stronger connection between students and staff allowing students to want to remain at our campus as well as staff. It will also provide extra support for students allowing them to have someone they can depend on and have their voices heard. State Compensatory

Budget for Hunters Glen Elementary

Total SCE Funds: \$6,606.00

Total FTEs Funded by SCE: 2

Brief Description of SCE Services and/or Programs

Our Compensatory Ed funds are used towards providing supplies and materials (\$4,606) to students in order to utilize campus programs such as learning farm, dreambox etc. We also use the supplies and materials to support our morning tutorial program to support students that are classified as at-risk. \$1,000 of our funds are allocated to traveling for our 5th grade students to attend our Middle School day that has been a requirement and a part of the parent educator's transitioning program. We implement PBIS this year rewarding our students for meeting campus behavior expectations; therefore, (\$1,000) is utilized to support purchasing incentives to reward our campus's desired behavior.

Personnel for Hunters Glen Elementary

Dear Parents and Guardians:

Fort Bend ISD has students and families that speak many different languages. In an effort to ensure that all of our families are able to be informed of the amazing things that are happening on our campus and throughout the district, we have multiple ways for you to be able to translate the information into your native language.

- Our Parent Newsletter is written in Smore which has a translation feature embedded in the newsletter
- The district web site can be translated into many languages
- All communication is available in English and Spanish
- Front office staff and bilingual teachers are available to help with translations and telephone calls.
- Translators are offered for ARD's if needed

If we have not met your need for translation, please reach out to the campus so that we can accommodate your needs.

Thank you,

A handwritten signature in black ink, reading "LaVanta Williams". The signature is fluid and cursive, with the first name "LaVanta" being more prominent and stylized than the last name "Williams".

LaVanta Williams, Hunters Glen Elementary

I. COMPREHENSIVE NEEDS ASSESSMENT (CNA)

The CPAC team met on April 28, 2023 to begin the development of the 2023-2024 school year campus needs assessment. During this meeting the team reviewed the purpose of the meeting and reviewed the parent portions. Components of the Title 1 and Elements of ESSA were reviewed with the parents as well as re-sharing the information regarding the previous school year's TEA designated rating. Element One of the Comprehensive Needs Assessment was also completed during this time. Parent Educator, J. Martin reviewed the K-12 Insight, The parent compact goals were explained and communicated with the team the purpose of the agreement. In Breakout rooms teams discussed root causes found in the data of the K-12 Insight and other campus data sources such as attendance, discipline, and various campus, district, and state academic screeners. Breakout rooms also focused on reviewing the parent and family engagement policy which was reviewed and revised during element one of the Comprehensive Needs Assessment. Problem statements were also identified by the teams at this time. The CPAC team met again on May 5, 2023. During this time the HGE Title 1 Survey was reviewed and the team completed the HGE Title Survey Analysis tool during this time. The Campus Needs Assessment and Campus Improvement Plan was completed for the 2023-2024 school year as a component of the May 5, 2024 meeting with completion and uploading during June 2023 for the current school year. On October 6, 2023 the CPAC met to review the completed documents and discuss progress towards goals.

Hunters Glen Campus Improvement Plan can be found located at

<https://tx01917858.schoolwires.net/cms/lib/TX01917858/Centricity/Domain/19768/CIP%20CNA%20.pdf>

The Campus Needs Assessment leadership team began on April 18, 2023 to create the team for the 2023-2024 school year, begin the agenda, and send out calendar invites. CPAC Team Members included:
