Word of the Month: PERSERVERANCE

Our character trait for the month of January is Perseverance. This month, we are encouraging our Bengals to remember that finishing what you start is always worth the effort. School, much like life, has its ups and downs—some days feel easy, while others can be challenging. Through it all, we will continue to persevere, reflect on our experiences, and grow from them.

To start the year, we will be sharing a few stories with students that highlight the importance of perseverance and determination. Families are welcome to click the link below to enjoy the read-aloud together at home and continue the conversation.

We wish you all a Happy New Year and look forward to a month filled with growth, resilience, and success!

Middle School Transitions

January 28th will be an exciting and important day for our 5th grade students as they visit First Colony Middle School. During this visit, students will participate in a guided tour of the campus and learn more about the middle school experience, including the course selection process and available elective classes.
