

ENERGY OGRE
our technology, your savings

All electricity comes from the same place, even if you pay twice as much as your neighbor. 90% of Texans are overpaying. Clearly, consumers are not reaping the rewards of deregulation. But why?

Overwhelming choices, complex pricing and gimmicky plans make the process of selecting providers and plans challenging. Consumers need unbiased help navigating the complicated marketplace and ensuring they are always in competitive plans that make the most sense for their home or business.

That is what Energy Ogre offers its members. All for just \$10 a month.

Applied technologies, adaptive solutions, empowered consumers.

WE SHOP

Our proprietary technology uses analytics to actively monitor and assess the 2,000+ different plans available on the market at any given time.

WE SELECT

We generate a customized demand profile for each member and then match them with competitive plans that work best for how they use electricity.

WE MANAGE

After enrollment, we handle any issues that may arise. We also track usage and send monthly forecasts so members can monitor their consumption and always know what to expect on their electricity bill.

YOU SAVE!

We save members time and money. They can rest easy knowing they'll never overpay for electricity again. And we it up with our 100% satisfaction guarantee!

We find the best deals. Period.

Check out our [free savings calculator](#) to see how much you can save. Sign up with the promo code **FBEF**, and a portion of your membership will go to support the Fort Bend Education Foundation.

And you'll get your 13th month free!
