

The Conch Bearer

This novel is divided into nineteen chapters. In order to be ready for the first week of school you need to do the following:

1. Organize your thoughts on the chapters by recording important information about each chapter: what is happening, who are the major characters, and what is the main setting.
2. When writing your three to four sentence summary for each chapter, focus on the main events of the chapter and how the characters involved react to the events.
3. Your sketch may use stick figures and it will include details from the setting for that chapter. Color is nice but not required.

To help you organize your thinking, here is a template you will use to keep track of the events in the book.

4. **Recreate or copy the format of this organizer** onto notebook paper or in a word processing document and follow the pattern shown. You are expected to read and briefly summarize all nineteen chapters on your organizer.

The completed organizer will be due the first week of school.
