GERMANY SPARK! PROGRAM

Every Tuesday 5-6 PM
October 18th to November 15th

Join Today.

**GET AHEAD
LEARNING
GERMAN!**

The German SPARK program is specifically developed for middle schoolers to learn German before high school. Learn one of the most influential languages completely for free!

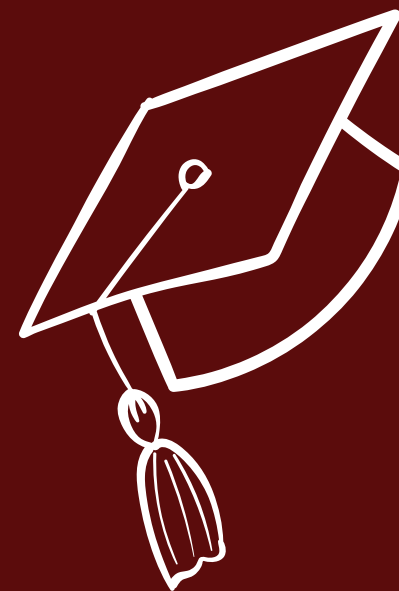

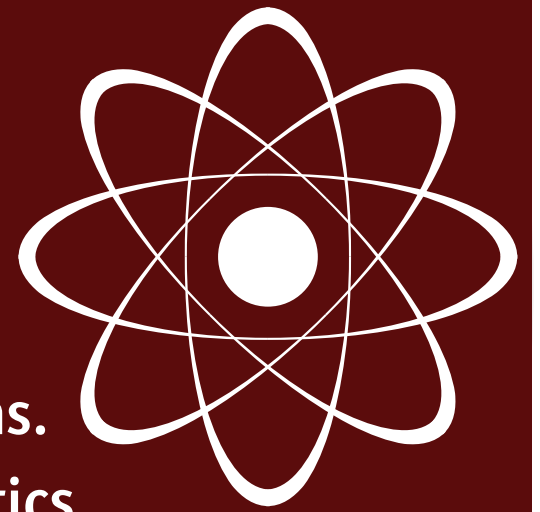

WHY LEARN GERMAN?

Through German, I have been able to explore a multitude of subjects from an international and diverse perspective. I've even been able to apply German to other extracurriculars like computer science and debate.

TESTIMONY FROM REAL GERMAN STUDENTS!

10 of the 22 greatest scientific breakthroughs of the 20th century were made by Germans or Austrians. Germans also pioneered green politics, recycling, and eco-friendly technologies

2,000 grants are awarded to US students and professors annually to study and research in Germany, and tuition is free at Germany's excellent universities.

Germany is the 3rd largest investor in the US, the 4th largest national economy worldwide, and the largest in the European Union, with companies such as Adidas, BASF, Bayer, Bosch, Lufthansa, SAP, Siemens, T-Mobile, or Volkswagen accounting for 800,000 jobs in the US

FBISDs German program has changed my life. Last year, I was fortunate to spend a year in Germany through a state-sponsored exchange year. I met so many new people and learned so much about Germany. I will never forget everything this program has done for me.
