

Dear Parents,

We are looking forward to welcoming our students next week, and we are continuing to build schedules for all our middle school students returning to our campus as well as all students who are going to remain online.

As Dr. Dupre has previously communicated, building schedules is a significant effort that has had to be done manually this year in order to address the dual learning platforms, and we are working diligently to support our students during this transition.

As a reminder, students who have selected **Face to Face Only** will return according to the schedule:

6 th grade	Monday, October 5
7 th grade	Wednesday, October 7
8 th grade	Friday, October 9

Our 6th grade students will receive their new schedules on or before Monday, but it is possible that schedules for 7th and 8th grade may be delayed until later in the week.

While we continue to develop schedules for all students at Lake Olympia Middle School, our students who are online will be attending class asynchronously Monday and Tuesday. It is critical for students to complete the asynchronous learning activities on Monday and Tuesday to ensure accurate attendance for both days. Students will receive information from their teachers regarding the asynchronous learning they will be engaged in Monday and Tuesday. Should your student have any questions, please have him or her reach out to their assigned teacher.

Please be assured that we will be prepared to welcome our students who **selected face-to-face learning on their identified phase-in date**. Normally in the first two weeks of the school year, we have some changes as we balance classes and adjust teacher loads, and this re-beginning will be no different. Some students may have a change in the first week or two as we work through the normal process.

Thank you for your continued support and patience.
