Parents, did you know that students could access over 1,200 free books on their iPads? There is a wonderful collection of fiction and non-fiction titles that students can access via our catalogue Destiny Discover. All they need to do is scan the QR code or type the website (below) in Safari and login with their computer username and password. Once logged in, students should choose eBooks, tap open and start reading a great book. If you have questions about our eBooks, please contact our librarian Ms. Anderson at mona.anderson@fortbendisd.com

Happy Reading!
