

A hand is shown interacting with a futuristic digital interface. The hand's fingers are touching a glowing, colorful surface that appears to be a screen or a control panel. The background is dark, and the interface has various glowing elements, including a prominent blue and yellow light. The overall aesthetic is high-tech and digital.

obsolete in a smart city**

Where communication advances rapidly in a single lifetime

Redefining how we learn and transforming education platforms

A person wearing a VR headset is shown from the chest up, reaching out with both hands towards a glowing, digital interface. The interface consists of numerous small, colorful nodes (red, blue, green) connected by thin, glowing lines, creating a complex, web-like structure. The background is dark and slightly blurred, suggesting an indoor setting. The overall atmosphere is futuristic and technological.

Infusing behaviors through gamification
