

Innovation Hour supports our Gifted and Talented students' development and exemplification of the attributes identified in Fort Bend ISD's Profile of a Graduate. Through a multi-year cycle, Innovation Hour will provide learning opportunities that facilitate the development of a rigorous academic foundation, strong character and a graduate that is...

### **an effective communicator.**

Innovation Hour provides our GT students opportunities to apply their skills by clearly communicating through pitching ideas and presentations, engaging in courageous conversations with peers and experts, and adapting to communicate with various audiences.

### **a critical thinker.**

Innovation Hour provides our GT students experiences that are passion driven, innovative and explorative in solution-oriented arenas. It creates a safe, risk-taking platform to devise non-conventional thought processes that allow students to improve themselves and the world by focusing on global goals.

### **a collaborative team member.**

Innovation Hour provides our GT students the opportunity to achieve goals with like-minded peers. The program positively facilitates team work and builds respect for the needs and contributions of others through sharing project pitches and ideas.

### **a compassionate citizen.**

Innovation Hour provides our GT students a platform to develop into empathetic citizens tackling issues impacting their community and world. This innovative program facilitates development of respectful, dependable, trustworthy, and self-disciplined students engaging in embracing and improving diversity, inclusion, and cultural awareness through inquiry.

### **a servant leader.**

Innovation Hour provides our GT students opportunities to prioritize the needs of others through passionate inquiry designed to improve society. Planning projects aligned with global goals promotes development of confident, accountable leaders striving to serve others.

### **equipped with skills for life.**

Innovation Hour provides our GT students a platform to meaningfully and practically apply knowledge in productive ways. Passion projects will allow our students to exhibit determination, respect, advanced articulation, and technological proficiency.

### **a life-long learner.**

Innovation Hour provides our GT students the opportunity to be creative and follow their passions. Choice in learning instills curiosity and a thirst for knowledge that will prepare our students academically to pursue and attain futures beyond what they can image!
