## Section 6: Student Performance in Secondary Institutions

## **Report of 2019-2020 High School Graduates' Enrollment and Academic Performance in Texas Public Higher Education in FY 2021**

Texas statute requires every school district to include, with their performance report, information received under Texas Education Code §51.403(e). This information, provided to districts from the Texas Higher Education Coordinating Board (THECB), reports on student performance in postsecondary institutions during the first year enrolled after graduation from high school.

Student performance is measured by the Grade Point Average (GPA) earned by 2019-2020 high school graduates who attended public four-year and two-year higher education in FY 2021. The data is presented alphabetically for each county, school district and high school. The bookmarks can be used to select the first letter of a county. Then the user can scroll down to the desired county, school district and high school.

For each student, the grade points and college-level semester credit hours earned by a student in fall 2020, spring 2021, and summer 2021 are added together and averaged to determine the GPA. These GPAs are accumulated in a range of five categories from < 2.0 to > 3.5. If a GPA could not be calculated for some reason, that student is placed in the "Unknown" column. GPA data is only available for students attending public higher education institutions in Texas. If a high school has fewer than five students attending four-year or two-year public higher education institutions, the number of students is shown but no GPA breakout is given. If a student attended both a four-year and a two-year institution in FY 2021, the student's GPA is shown in the type of institution where the most semester credit hours were earned.

The number of students located at Texas independent institutions is presented. Also shown are "not trackable" graduates, those with non-standard ID numbers that cannot be used to match student identifiers at Texas higher education institutions. "Not found" graduates have standard ID numbers but were not located in FY 2021 at Texas higher education institutions. They might have enrolled in higher education outside of Texas.

No data is given for high schools with 25 or fewer graduates.

Because the statute calls for data on the first year enrolled after graduation, the level of the institution attended by students in this report may not match that given in THECB's high school to college report at <http://www.txhighereddata.org/Interactive/HSCollLink>. That report shows where students attended in the fall semester after their high school graduation year. This report attributes students to the level of institution where they earned the most semester credit hours during the whole academic year, not just the fall semester.

**Please note:** In May 2012 the 2006-2007, 2007-2008, and 2008-2009 versions of the *Report of High School Graduates' Enrollment and Academic Performance in Texas Public Higher Education* were updated to reflect a minor correction in how the GPA data are distributed across ranges.

## DIP 2021-22 Final Report: Metric Details & Appendices

### Metric Detail

Goal 1: FBISD will provide an equitable learning environment that provides all students access to the FBISD Curriculum.	
<b>PO 1.1</b> By June 2022, FBISD will improve student outcomes in literacy as defined by the evaluation metrics by ensuring strong Tier one classroom instruction targeting student ownership instructional strategies.	
Metrics	Met/Not Met
<b>1.1.1</b> Overall, in 2021-22, 30% of campuses will meet all established percentages on the Campus Support Team (CST) walk-through data for rigor, instructional model, and scope & sequence for English Language Arts (ELA) instruction.	<b>MET</b>

CST Walks were made optional for campuses Fall 2021. The EOY data for CST walks is calculated based on any campus that participated in campus walks does not represent all campuses.

Based on the 2021 – 22 CST walks, 49% of the campuses met all three targets for alignment to the Rigor, Scope & Sequence, and Instructional Model which exceeded the yearly target by 19%.

*\*This data is not able to be reported due to variations in student populations from the 2021 to 2022 school year.*

Few students had a progress indicator in 2021 because TELPAS testing was halted in 2020 due to COVID-19. For this reason, comparison of annual change from 2021 to 2022 would not be valid this year.

Due to student privacy, campus numbers are masked as there are less than 5 students per campus with a Progress Indicator.

AP Exams are given in May; Districts receive student participation data from College Board mid to late July. The percentages in the 2020 – 21 to 2021 – 22 rows are indicative of the number of students who have paid to take an AP exam in May 2022. The percentages for the 2021-22 school year may change once information is provided on how many students actually participated in the exams. It is important to note that in May 2020 and May 2021 there was no penalty to students who did not take their exams. They received a full refund for any missed tests.

<b>1.5.2</b> Increase percentages of students in Advanced Placement (AP) courses that sign up to take the AP exam/s related to the course/s they are taking.	<b>N/A*</b>

\* This data is not able to be reported due to variation in the data collected and reporting by College Board.

An increase in the number of students who have taken an AP course and signed up for the corresponding exam was not able to be calculated due to how AP exam data is reported. Previous data reports included only the number of students who took the exam and received a score. District staff have established a system to be able to report comparative data on this metric in the future. The tables below detail student participation in an AP course as well as the number of students who did not participate in AP exams during the 2021 – 22 school year. Some students may be represented in both charts, meaning they may be more than one AP course but are not taking all of the exams that match the courses they are enrolled in.

<b>1.5.3</b> Increase the percentage of students meeting college ready benchmarks in English (Reading/Writing) and Math on the SAT or ACT or TSIA.	<b>DATA NOT AVAILABLE</b>

The SAT and ACT run through June of each year and both College Board and ACT typically send information to districts in mid to late July regarding all students who tested for the 2021-22 school year. For the 2021 – 22 results the College Board has indicated that student data will not be available until the end of September 2022. The TSIA2 was started in January 2021. The data does not correlate with the historic TSIA testing data. The 2021-22 school year is the first full year of the implementation and gives baseline data. FBISD has not yet received the results from College Board and ACT.

<b>PO 1.5</b> By June 2022, FBISD will increase the percentage of students who demonstrate readiness in early childhood and CCMR measures (College, Career, & Military Readiness) through access to all academic options, student programs, and support systems such as engagement in college/career planning.

<b>1.5.4</b> Increase the number of students that take an advanced course (AAC, AP, or Dual Credit) either after receiving a score on PSAT 8/9, 10/11 PSAT/National Merit Scholarship Qualifying Test (NMSQT) showing AP Potential, or based on their interests for future endeavors.	<b>MET</b>

When a student participates in the PSAT 8/9 and PSAT10/NMSQT, College Board uses the scores to determine if a student shows potential for success in AP courses. Students participate in these tests in October. Based on the test results in October 2019, 11,977 students in Fort Bend showed AP Potential; in October 2020, 9074 students showed AP Potential; and in October 2021, 13,099 students showed AP Potential. It is important to note that the number of students tested in 2020 was much lower because students had the option not to take the PSAT, because of the pandemic. The chart below shows the percentage of students that were identified with AP Potential and signed up for an Advanced Academic course for the next school year.

The Instructional Planning Report provided by the College Board detailed the skills identified as key to college readiness. The tables below detail grade level breakdowns of the percent of students who need to strengthen specific skills (Strengthen), those who are approaching being on track for college readiness (Close), and those that are on track for college readiness (On Track).

There are two other concept areas within the PSAT that are not included in this data; Analysis in Science and Analysis in History /Social Studies. The reason that these are not included is that they are used in combination with the main concepts of the test. Both concepts are part of the assessment of a student's ability to use the concepts in a manner that will be able to answer questions based on scientific or history/social studies texts.

Based on the information provided in the report, FBISD staff were able to determine that students struggle with the following concepts and need support in the following areas:

- ELA: The Command of Evidence, Words in Context, Expressions of Ideas, and English Conventions.
- Math: The Heart of Algebra and Problem Solving and Data Analysis for all grade levels. 10<sup>th</sup> and 11<sup>th</sup> grade students need support in the Passport to Advanced Math area. For individual campus data, see **Appendix P**.

Students in 11<sup>th</sup> grade are also given the opportunity to take the SAT at no cost in the spring of each year on the SAT School Day. College Board also releases an Instructional Planning report for this as well. Below is the information for the 11<sup>th</sup> grade students that took the exam in the Spring 2022.

While the report indicates that the majority of our students are considered on track for college readiness at 61% for the Evidence Based Writing portion of the SAT, there are still areas of that test where students struggle such as Commands of Evidence, Words in Context, Expression of Ideas, and Standard English Conventions. Staff noted that many of the questions with low student performance were tied to the Analysis of Science or History/Social Studies. This indicates a need for more cross curricular planning in all core areas.

The number of students that take the ACT is significantly smaller than the amount that takes the SAT. As of May 18, 2022, only 879 students have taken the ACT. This is not a valid number of participants to be able to give a statistical analysis of areas of struggle for the students in our district.

A comparison of the percent of students who meet the TEA indicator for obtaining an Industry-Based Certification was unable to be calculated due to changes in the reporting structure from TEA. This resulted in changes to how the percent of students meeting the TEA criteria was calculated so

a fair comparison could not be made, however, the data from the 2021 – 22 school year is provided in the table below detailing the number of student attempts and attainments of industry-based certifications by class. Cumulatively, CTE students acquired an industry-based certification at a rate of 38.8%.

A two-phase process was established to track and ensure that teachers are providing instruction only in their areas of certification upon initial hire as well as through campus movement and shifting teacher assignments. Details of the two phases of the process are detailed below.

- Phase I of this process was to track non-certified long-term substitutes when they are in assignments for more than 21 days (Title I campuses) and 30 days (Non-Title campuses). The mapping of the certifications to the courses was completed, with the exception of Special Education. The Instructional Technology team is working with the Special Education Department and skyward team to identify elementary special education courses within the master schedule.
- Phase II will identify teachers who are not certified in the content. This work will begin in the 2022 – 23 school year.

The implementation of Multi-tiered Systems of Support & Whole Child Health processes were monitored during the 2021 – 22 school year through the number of counseling services, the number of requests for Tier 2 and 3 counseling services, and through collection of baseline data on Whole Child health referrals. Then number of counseling services as well as the number of Tier 2 and 3 counseling services provided increased during the 2021 – 22 school year. Baseline data was collected regarding the number of Whole Child health referrals needed. The tables and information below detail the information regarding each tier of support provided and the comparisons when applicable to previous school years.

**TIER 1**

The Tier 1 table below illustrates an increase in the number of counseling visits categorized by service type not necessarily the number of students seen. As some of these could indicate one student going for multiple service type services a month. The first chart is comparison data for the 2020-21 and 2021-22 school year. **Addendum T** includes a breakdown of the counseling services provided by month for the 2021-22 school year.

The Tier 2 table below reflects and increase in the number of requests submitted by campuses through the Whole Child Health Online Referral Form. The form was introduced in the 2019 – 20 school year to help streamline requests for campus support from the Behavioral Health Department. Campus use has steadily increased over the last three years allowing the department to gather needed information to define support. These numbers do not include requests that come via email, phone, or in-person conversations.

To evaluate the effectiveness of support for the highest need individuals, District staff utilized a Pre/Post assessment for students and a survey of parents and staff. The Pre/Post assessment completed by students receiving Tier 3 services required them to self-assess their level of resiliency. An increase in the post assessment score evidences the effectiveness of services provided. The table below shows the average score in the pre/post assessments of students receiving services from FBISD Mental Health Counselors and Clearhope Counseling.

In January 2022, parents and campus staff began receiving surveys to gauge perceived effectiveness of the services that their students received. The Behavioral Health and Wellness Department used these surveys to improve mental health services and the process and procedures that help connect student and families to supports.

<b>2.2.1</b> Increasing % of Student Ownership of Learning and Behavior practices (POG 1-6) observed during Campus Support Team (CST) walkthroughs.	<b>REPORTING PARTIAL DATA</b>

In Fall 2021, Campus Support Team (CST) walks were made optional. The End of Year (EOY) data for CST walks is calculated based on any campus that participated in campus walks but may not be representative of all campuses. The observation tool and metrics to measure Student Ownership of Behavior were adjusted based on campus leader feedback making a comparison to the 2020 – 21 school year invalid. Due to both of these impacts, evaluation of the metric is limited however the partial data that was collected is included below.

## Goal 2: FBISD will ensure students own and are responsible for their learning, behavior, and progress through the FBISD curriculum.

**PO 2.3** By June 2022, FBISD will decrease disproportionality rates of student groups, as demonstrated in disciplinary actions (ISS, OSS, DAEP) and ensure that threat assessment protocols are followed as well as strong implementation of established FBISD Multi-Tiered System of Support (TSS).

The number of campuses offering a before and/or after school club increased by two campuses compared to the initial club data that was previously reported during the middle of the year report. The system to collect demographic information regarding student participation in clubs not connected to a Skyward course was designed and set to be implemented in the 2022 – 23 school year through a survey provided to students by club sponsors in the Fall 2022 and Spring 2023 semesters to collect demographic information.

Baseline data on the engagement of students in enrichment and leadership opportunities was collected based on the number and percentage of student participating in a District School Leadership Program.

The table below shows the total number and percentage of students participating compared to the overall student enrollment in Grades 8-12.

District Student Leadership Program Participation, Grades 8-12*		
2021-22**		
Total Participating	Total Enrolled	% of Total Participating
1047	33486	3.13%

The table below details the student participation in leadership opportunities by student groups. The percent of students in that student group participating is compared to the demographic percent of the district overall. These are then displayed as a ratio to highlight the relationship between those two numbers.

- The closer the number is to 1, the more representative the population of students participating in leadership opportunities are compared to the overall FBISD student enrollment.
- A ratio less 1 means the students are under-represented in leadership programs.
- A ratio greater than 1 means the students are over-represented in leadership programs.

According to baseline data demographic disproportionalities do exist in leadership opportunities among participating groups.

- White and Asian students are overrepresented in student leadership roles compared to their enrollment,
- African American, Hispanic, Eco-Dis, EB/EL, and Students serviced in SPED are all underrepresented compared to their enrollment

<b>3.1.5</b> Increase the enrollment, retention, and success of students in ECHS (MHS) and P-TECH (HHS, WHS) programs by specific student groups in line with the required outcome-based measures (OBM). (Campus and District)	<b>NOT MET</b>

The enrollment, retention, and success of students in ECHS and P-TECH programs did not increase for all student groups based on the required outcome-based measures.

Fort Bend ISD is currently in third year of implementation for these programs. The 2019 – 20 School Year included an initial cohort of 9<sup>th</sup> graders only, 2020 – 21 included 9<sup>th</sup> and 10<sup>th</sup> graders, and 2021 – 22 included 9<sup>th</sup>, 10<sup>th</sup>, and 11<sup>th</sup> graders. The state designates required Outcome-Based Measures (OBMS) for both Early College High School and Pathways in Technology programs in the areas of Access, Attainment, and Achievement. Details about the specific criteria for each requirement and additional data can be found in **Appendix W**.

### Access

The Access Outcome-Based Measures are based on ensuring that students that are At-Risk, Economically Disadvantaged, Emergent Bilingual, and students who receive special services are represented within the program within a certain range of the district percentage for each. A green cell indicates the requirement was met for that demographic. A red cell indicates the requirement was not met for that demographic. The P-Tech at HHS program missed the required levels of enrollment for Emergent Bilingual and Students with Disabilities that requires the enrollment percentage to be no more than 5% lower than the district enrollment Percentage.

Student Group Enrollment % of District Compared to ECHS/P-Tech Enrollment % 2021-22				
	District	ECHS	P-Tech at HHS	P-TECH at WHS
<b>At-Risk</b>	43%	48%	49%	52%
<b>Economically Disadvantaged</b>	48%	78%	61%	86%

Student Group Enrollment % of District Compared to ECHS/P-Tech Enrollment % 2021-22				
	District	ECHS	P-Tech at HHS	P-TECH at WHS
<b>Emergent Bilingual</b>	19%	6%	5%	15%
<b>Students With Disabilities</b>	11%	4%	3%	6%

### Attainment

The Attainment Outcome-Based Measure is based on overall student retention and dual credit course completion milestones for students. The first graduating class will be the class of 2023, at that time we will be able to give data for retention; however, the current projections for attainment can be found in the table. Yellow cells indicate the program is currently performing below the required percentages for designations.

Projected Attainment Outcome Based Measures for Class of 2023			
	ECHS	P-TECH at HHS	P-TECH at WHS
<b>Retention (See Appendix W)</b>	57%	76%	71%
<b>9 Hours of Dual Credit by End of 10th Grade Year</b>	0%	42%	38%
<b>15 College Hours by Graduation</b>	24%	18%	29%
<b>Complete 1 College Level Course by End of 11th Grade</b>	62%	58%	67%

### Achievement

The Achievement Outcome-Based Measure is based on students meeting college ready benchmarks on the TSIA2, SAT, ACT, and EOC. It is important to note that the class of 2023 did not have to take the English I EOC and Algebra I EOC as it fell in the Spring 2020 and was canceled by the state due to the pandemic. Many of the students in the class of 2023 also did not take the English II EOC in the Spring 2021 because of the pandemic. Students have currently not taken the ACT and may not since the district pays for them to take the SAT during the spring of their Junior year and they are TSIA2 tested throughout their participation in the program until they pass the TSIA2 or are exempt because of their PSAT, SAT, EOC Eng II, or EOC Algebra I test scores. The table below provides details about the percentage of students meeting College Ready benchmarks. Green cells indicate the requirement was met for that demographic. Yellow cells indicate currently performing below the required percentages for designations.

**Goal 3: Fort bend ISD will provide an inclusive, collaborative, and fluid learning environment with opportunities for both risk-taking and success at every school.**

**PO 3.1** By June 2022, FBISD will increase the engagement of students in differentiated learning opportunities, extracurricular, co-curricular, leadership and other club/organization activities that help students explore their talents, gifts, interests and leadership while developing the attributes of the Profile of a Graduate.

Metrics	Met/Not Met
<b>3.1.6</b> Increase the proportionality of student groups, African American, Hispanic, and Eco Dis, that are identified as GT and have opportunities to receive GT services. (Campus and District)	<b>NOT MET</b>

The percentage of students served through GT remains disproportionate. The percentage of African American students receiving GT services decreased and the percentage of Asian students increased. The table below details the overall percentage of students receiving GT services in FBISD compared to the total students enrolled.

District GT Service Percentage – All Students					
2020-21			2021-22		
Total Served	Total Enrolled	% of Total Served	Total Served	Total Enrolled	% of Total Served
5345	73669	7.3%	5102	75130	6.8%

The table below breaks down and compares the GT enrollment and FBISD enrollment data by student groups. The percent of students in each group serviced in GT divided by the percent of students enrolled in FBISD for each demographic group to create the service ratio:

- The closer the service ratio is to 1, the more representative the population of students participating in GT services are compared to the overall FBISD student enrollment.
- A ratio less 1 means the students are under-represented in GT services.
- A ratio greater than 1 means the students are over-represented in GT services.

Although the total percentage of students identified for GT services in FBISD decreased, the percentage of Hispanic and Eco Dis students served by the program increased by 0.2% and 2.5% respectively. The percentage of African Americans decreased by 0.4%.

Metrics	Met/Not Met
<b>3.1.7</b> Meet or improve the prior year percentage of overall identified GT to 5% per campus, as per the state standards for GT identification. (Campus and District)	<b>MET</b>

The number of campuses with an overall identified GT population of greater than or equal to 5% remained the same for the 2021 – 22 school year. The table below details the number of campuses at each campus level that maintained the state standard for GT identification.

Number of Campuses with $\geq 5\%$ of Enrollment Identified as GT		
	2020-21	2021-22
Elementary Schools	17	16
Middle Schools	5	6
High Schools	6	6
% of All Eligible Schools	36%	36%

Data Source: Fall PIEMS 2020-21 and 2021-22  
See **Appendix U** for a breakdown by campus

In elementary, one campus dropped below the 5% target changing the total number of 5%-elementary campuses from 17 to 16. In secondary, an additional middle school has met the 5% target for 2021-22, moving the number of 5%-middle schools from 5 to 6. The number of high schools remains the same. Based on these changes, the overall percentage of FBISD campuses with a 5% identification rate remains constant at 36%.

<b>Goal 4: Fort Bend ISD will develop students' social-emotional, academic, literacy, language, and life skills in a safe and secure Collaborative Community at every school.</b>	
<b>PO 4.1</b> By June 2022, FBISD will track the number of community engagement opportunities and effectiveness of community partnerships through the development of systems that allow for shared measurement, ongoing monitoring, and implementation of Collaborative Communities Strategic Priorities.	
<b>Metrics</b>	<b>Met/Not Met</b>
<b>4.1.1</b> Gather baseline data on diverse stakeholder feedback groups and community collaboratives that exist at District and Campus levels	<b>MET</b>

For the 2021 – 22 school year, Collaborative Communities conducted an internal environmental scan of District stakeholder committees. There were 20 stakeholder committees that provided input to 10 different departments, 7 of which included student representation. **Appendix X** has the breakdown of the committee owners, purpose, membership and composition, and appointments.

<b>4.1.2</b> Increase accountability measures between District and community partners to help assess effectiveness and value of the partnership and streamline distribution of resources across the District.	<b>MET</b>

District staff collaborate to develop processes and procedures to increase the effectiveness of interactions with valued district partners. District teams collaborated to develop handbooks designed to establish guidelines for interactions with various programs and stakeholder groups that will create consistency and streamline the distribution of resources across the District.

**Goal 4: Fort Bend ISD will develop students' social-emotional, academic, literacy, language, and life skills in a safe and secure Collaborative Community at every school.**

<b>Metrics</b>	<b>Met/Not Met</b>
<b>4.1.3</b> Increase number of initiatives/ activities through Collaborative Communities strategic priorities (e.g., mentoring, family engagement and exemplary partnerships, community impact) that provide non-academic supports to students	<b>MET</b>

The number of initiatives and activities as well as the participation in the activities increased overall for the 2021 – 22 school year. Volunteer hours returned after being paused due to the pandemic, and the use of parent educators was added this year to provide courses and other engagement opportunities for parents at Title 1 schools. The table below details the participation in the various activities and initiatives.

<b>PO 4.2</b> By June 2022, FBISD will increase community and family partnerships to support early literacy, early childhood development, and kindergarten readiness through access to programs and resources.		
Metrics		Met/Not Met
<b>4.2.1</b> Increase the number of family engagement opportunities / events to support children's early literacy, early childhood development, and kindergarten readiness. Parent access and participation will increase 5% annually and will be quantified through several methods: <ul style="list-style-type: none"> <li>• ReadyRosie usage</li> <li>• Parent Newsletter readership</li> <li>• Attendance and survey feedback following parent learning events.</li> </ul>		BASELINE

The number of family engagement opportunities during the 2021 – 22 school year was unable to be compared to the 2020 – 21 school year. There were inconsistencies in how parent access and participation were measured during the 2020 – 21 school year that would prevent an accurate comparison from being made.

Staff rectified inconsistencies and implemented processes and procedures during the 2021 – 22 school year that allowed the collection of baseline data for parent access and participation. The table below provides details related to the engagement tools utilized:

- ReadyRosie is a multilingual digital library with videos that portray birth parents and children learning together at home.
- PreK Family Newsletter is a monthly department publication that provides PreK families program updates, learning opportunities, and celebrations.
- All PreK families are invited to the Online Family Event offered once a month in the morning and evening in English and Spanish. Families learn concepts about the most current PreK unit of study, child development, and available at-home learning resources.

<b>4.2.2</b> Increase number of Public-Private Partnerships (PPP) to offer PreK3 programming in District areas demonstrating programmatic need.		<b>BASELINE</b>

The number of Public-Private Partnerships (PPPs) to offer PreK3 programming in District areas demonstrating need is being reported as baseline due to changes in the processes around Public-Private Partnerships. Additional New PPPs are not being pursued due to budgetary constraints.

The Early Childhood department solidified a Public-Private Partnerships with Fueling Brains last fall and received board approval on September 20, 2021. The partnership allows FBISD to offer additional early childhood opportunities to children 3 and 4 years of age from the Willowridge feeder pattern and other nearby patterns. The Fueling Brains Academy will offer right brain and left-brain classrooms where certified Fort Bend ISD teachers will teach the Fort Bend ISD PreK curriculum, enhanced with the Fueling Brains approach.

<b>Goal 5: Fort Bend ISD will develop an organizational culture that embraces care, respect, safety, and inclusion</b>	
<b>PO 5.1</b> By June 2022, FBISD will improve District culture through an intentional focus on staff wellness programs and engagement opportunities and stakeholder feedback processes as evidenced by evaluation metrics including analysis of survey results.	
<b>Metrics</b>	<b>Met/Not Met</b>
<b>5.1.1</b> Increase participation in employee wellness programs: <ul style="list-style-type: none"> <li>Physical Fitness and Stress Management Resources</li> <li>Preventive Care</li> <li>Employee Assistance Program (EAP)</li> </ul>	<b>BASELINE</b>

The increase in the participation of employee wellness programs is unable to be calculated due to inconsistencies in how participation was tracked during the 2020 – 21 school year. In 2021 – 22 the LiveWell App was used to consistently collect participation in various employee wellness programs and is detailed in the tables and charts below as baseline data.

The LiveWell App participation feature allows employees to more easily enter their participation upon arrival to class. This process reduces the potential for missing or inaccurate information to be reported to the FBISD Wellness Team. The table below details the participation in Virtual Fitness classes for the Spring 2022 and had a total of 195 participants.

<b>March</b>	7	20	13	6	6	52
<b>April</b>	2	9	4	2	9	26
<b>Total</b>	18	74	40	23	40	195

Additionally, based on staff need, free campus-based Yoga classes were offered to all Leaders for Spring 2022. Based on the utilization, 19% of all campuses participated in the campus Yoga classes. The table in Appendix Y details the breakdown of attendance by date and campus.

The new Virtual Behavioral Therapy and Coaching program has been very successful. The goal of the program is to identify employees with chronic medical conditions that experience mental health challenges and provide support through virtual sessions for depression, anxiety and stress. Through May 2022 there have been 1,444 outreach calls, 676 connected, 37 resulting in initial consultations, 28 engaged and 14 have graduated since the program was implemented. The table in **Appendix Z** details the demographic breakdown of participants in the Virtual Behavioral Therapy and Coaching program.

**Goal 5: Fort Bend ISD will develop an organizational culture that embraces care, respect, safety, and inclusion**

5.1.2	Increase vaccine mitigation efforts to support employee health and safety.	PARTIAL DATA REPORTED

As part of the on-going COVID-19 vaccination mitigation strategy, Fort Bend ISD partnered in the Fall 2021 semester with local community providers to facilitate onsite vaccination events (Fort Bend County Health & Human Services, Texas Vaccine and the United States National Guard). After February 2022, a survey was proposed to collect additional data to ensure the collected data was representative of a full staff vaccination status in FBISD but was paused due to concerns over the potential for survey fatigue in the late spring semester. The partial data collected below from the vaccination events is detailed in the table below but because the proposed survey was not administered it may not represent a complete picture of the actual vaccination status of district staff members.

In Fall 2021, the Fort Bend ISD Board of Trustees passed a resolution that provides 10 additional sick leave days for staff members who are required to isolate and/or quarantine due to a positive COVID-19 test of close contact exposure. Staff were notified September 20, 2021, by Internal Communication of this program, its parameters, and a link to the District Additional Leave Days Request Form. The board resolution also included retroactive reimbursement of personal leave for COVID-19 absences between July 1 and October 1, 2021. Staff were asked to complete and submit the District Additional Leave Days Request Form on or before November 1, 2021.

## Performance

**STAAR:** A comprehensive testing program for public school students in grades 3–8 or high school courses with end-of-course (EOC) assessments. The STAAR program is designed to measure to what extent a student has learned, understood, and is able to apply the concepts and skills expected at each grade level or after completing each course for which an EOC assessment exists. Each STAAR assessment is linked directly to the Texas Essential Knowledge and Skills (TEKS). The TEKS are the state-mandated content standards that describe what a student should know and be able to do upon completion of a course. For more information on the TEKS, see the *Texas Essential Knowledge and Skills* website at <http://tea.texas.gov/curriculum/teks/>.

### Other Important Information:

*STAAR (with and without accommodations) and STAAR Alternate 2.* The TAPR and the Texas Performance Reporting System (TPRS) include performance on STAAR and STAAR Alternate 2.

*Spanish STAAR.* All STAAR assessments in grades 3, 4, and 5 are available in both English and Spanish. The TAPR and the TPRS include performance on the Spanish STAAR.

*Rounding of STAAR results.* STAAR performance shown on the TAPR and TPRS is rounded to whole numbers. For example, 49.877% is rounded to 50%; 49.4999% is rounded to 49%; and 59.5% is rounded to 60%.

*Masking.* STAAR performance rates are masked when necessary to comply with FERPA. For more information, see the Explanation of Masking at <https://rptsvr1.tea.texas.gov/perfreport/account/2022/masking.html>.

## STAAR Performance (2021–22)

The STAAR Performance section displays performance results by grade, subject and performance level for students in the accountability subset, which are students enrolled in the same district/campus on both the snapshot date (PEIMS October snapshot) and the testing date. The STAAR Performance–All Students section of the TPRS displays STAAR performance by grade, subject, and performance level and includes all students tested, regardless of whether they were in the accountability subset.

### Bilingual Education/ESL

**Bilingual Education (BE):** Dual-language program that enables emergent bilingual (EB) students/English learners (ELs) to become proficient in listening, speaking, reading, and writing in the English language through the development of literacy and academic skills in the primary language and English. This category includes the following:

- *BE Trans Early Exit.* Bilingual program model in which students identified as EB students/ELs are served in both English and another language and are prepared to meet reclassification criteria to be successful in English-only instruction not earlier than two or later than five years after the student enrolls in school.
- *BE Trans Late Exit.* Bilingual program model in which students identified as EB students/ELs are served in both English and another language and are prepared to meet reclassification criteria to be successful in English-only instruction not earlier than six or later than seven years after the student enrolls in school.
- *BE Dual Two-Way.* Bilingual/biliteracy program model in which students identified as EB students/ELs are integrated with non-EB/non-EL students and are served in both English and another language and are prepared to meet reclassification criteria in order to be successful in English-only instruction not earlier than six or later than seven years after the student enrolls in school. This model provides ongoing instruction in literacy and academic content in English and another language with at least half of the instruction delivered in the non-English program language for the duration of the program.
- *BE Dual One-Way.* Bilingual/biliteracy program model in which students identified as EB students/ELs are served in both English and another language and are prepared to meet reclassification criteria in order to be successful in English-only instruction not earlier than six or later than seven years after the student enrolls in school. This model provides ongoing instruction in literacy and academic content in the students' primary language as well as English, with at least half of the instruction delivered in the students' primary language for the duration of the program.

**English as a Second Language (ESL):** An English acquisition program that enables emergent bilingual (EB) students/English learners (ELs) to become proficient in listening, speaking, reading, and writing in the English language through the integrated use of second language acquisition methods. This category includes the following:

- *ESL Content-Based.* An English acquisition program that serves students identified as EB students/ELs through English instruction by a teacher appropriately certified in ESL under TEC, §29.061(c), through English language arts and reading, mathematics, science, and social studies.
- *ESL Pull-Out.* An English program that serves students identified as EB students/ELs through English instruction provided by an appropriately certified ESL teacher under the TEC, §29.061(c),

## 2021–22 Texas Academic Performance Report (TAPR) Glossary

through English language arts and reading. Instruction shall be provided by the ESL teacher in a pull-out or inclusionary delivery model.

**Alternative Language Program (ALP):** An alternative language program provided to emergent bilingual (EB) students/English learners (ELs) for whom the local education agency (LEA) does not have the appropriately certified teachers for the required bilingual education or English as a second language (ESL) program for the current school year. This category includes the following:

- *ALP Bilingual (Exception).* An alternative language program to the required bilingual education (BE) program approved by the TEA for the current school year due to the LEA's submission of a bilingual education exception application.
- *ALP ESL (Waiver).* An alternative language program to the required English as a second language (ESL) program approved by the TEA for the current school year due to the LEA's submission of an ESL waiver application.

**Emergent Bilingual(EB) Students/English Learner (EL):** The count and percentage of students whose primary language is other than English and who are in the process of acquiring English. As a result of the 87th Texas Legislature, the term “emergent bilingual student” replaced the term of “limited English proficient (LEP) student” used in the Texas Education Code (TEC), Chapter 29, Subchapter B, and thus, will be changing the term of “English learner (EL)” used in 19 TAC Chapter 89, Subchapter BB. These terms describe the same group of Texas students. In the revised Texas Education Data Standards (TEDS), the terms of “emergent bilingual” and “English learner” have been bridged as EB/EL. The term “English learner” is still used in federal regulations and guidance. This category includes:

- *EB/EL with Parental Denial.* Students identified as emergent bilingual (EB) students/English learners (ELs) whose parents have denied all bilingual and ESL program services.
- *Never EB/EL.* Students who have never been identified as EB students/ELs (non-EB/non-EL students).
- *Total EB/EL (Current).* Students currently identified as EB students/ELs, including those served in a standard or alternative bilingual or ESL program as well as those with a parental denial of services.
- *Monitored & Former EB/EL.* Students who were once identified as EB students/ELs but have reclassified as English proficient, including students within their four years of state and federal monitoring and those beyond monitoring years.

### STAAR Participation (2021–22)

The percentage of students who were administered a STAAR assessment, STAAR Alternate 2, Texas English Language Proficiency Assessment System (TELPAS), TELPAS Alternate, and/or an SAT/ACT. The details on the participation categories are as follows:

*Assessment Participant:* 1) number of answer documents with a score code of S, 2) number of STAAR Alternate 2 testers with a score code of N, 3) number of A or O reading answer documents with a scored TELPAS or TELPAS Alternate assessment, 4) number of A or O mathematics answer documents with a scored TELPAS or TELPAS alternate assessment for year 1 asylee/refugees and students with interrupted formal education (SIFEs), and 5) number of accelerated testers' EBRW SAT, ELA ACT assessments, ACT science, and mathematics SAT and ACT assessments.

## 2021–22 Texas Academic Performance Report (TAPR) Glossary

- *Included in Accountability:* scored answer documents
  - ◆ *Accelerated Testers:* SAT/ACT results for students who completed STAAR end-of-course (EOC) assessments while in middle school
- *Not included in Accountability:* answer documents counted as participants but not included in performance calculations
  - ◆ *Mobile:* answer documents were excluded because the students enrolled in the district or campus after the TSDS PEIMS fall snapshot.
  - ◆ *Other Exclusions.* The following answer documents were excluded from performance calculations:
    - ❖ Answer documents for students who were tested only on the TELPAS/TELPAS Alternate or TELPAS/TELPAS Alternate plus STAAR assessments with score codes of A or O.
    - ❖ Answer documents of students who are an Emergent Bilingual/English learner (EB/EL) who has been in school in the U.S. for one year.
    - ❖ Answer documents of STAAR Alternate 2 testers with a score code of N.

*Not Tested:* answer documents with score codes A or O or accelerated testers without an SAT/ACT assessment

- *Absent:* answer documents with score code A
- *Other:* answer documents with score code O

The denominator for participation is the sum of these five categories: Included in Accountability, Mobile, Other Exclusions, and Not Tested (Absent and Other). STAAR Participation Rate is rounded to a whole number. For example, 94.49% is rounded to 94%. Small values may show as zero: 0.4% is rounded to 0%, and 0.6% is rounded to 1%. (Data source: STAAR and TELPAS File)

### Attendance, Graduation, and Dropout Rates (2021–22)

**Attendance Rate:** The percentage of days that students were present based on student attendance for the entire school year. Only students in grades 1–12 are included in the calculation.

Attendance is calculated as follows:

$$\frac{\text{total number of days that students in grades 1–12 were present during the 2020–21 school year}}{\text{total number of days that students in grades 1–12 were in membership during the 2020–21 school year}}$$

(Data source: PEIMS 42400)

**Chronic Absenteeism:** The unduplicated number of K–12 students enrolled for at least 10 days and absent for 10 percent or more days. Chronic Absenteeism is calculated as follows:

# 2021–22 Texas Academic Performance Report

## (TAPR) Glossary

**total number of K–12 students enrolled for at least 10 days and absent for 10 percent or more days during the 2020–21 school year**

---

**total number of K–12 students enrolled for at least 10 days during the 2020–21 school year**

(Data source: PEIMS 42400)

**Annual Dropout Rate:** The percentage of students who drop out of school during a school year. Annual dropout rates are shown for districts and campuses that serve grades 7–8 and/or 9–12. State law prohibits including a student who meets any of the following criteria from campus and district annual dropout rate calculations:

- Is ordered by a court to attend a high school equivalency certificate program but has not earned a high school equivalency certificate
- Was previously reported to the state as a dropout
- Was in attendance but not in membership for purposes of average daily attendance (i.e., students for whom school districts are not receiving state Foundation School Program [FSP] funds)
- Was initially enrolled in a school in the United States in any grade 7 through 12 as an unschooled refugee or asylee as defined by [TEC §39.027\(a-1\)](#)
- Attends a district exclusively as a function of having been detained at a county detention facility and is not otherwise a student of the district in which the facility is located or is being provided services by an open-enrollment charter school exclusively as the result of having been detained at the facility
- Is incarcerated in a state jail or federal penitentiary as an adult or as a person certified to stand trial as an adult
- Is a student in a Texas Juvenile Justice Department facility or residential treatment facility served by a Texas public school district
- Is at least 18 years of age as of September 1 and has satisfied the credit requirements for high school graduation; has not completed his or her individualized education program (IEP); and is enrolled and receiving IEP services

*Annual Dropout Rate (Gr 7–8).* This includes only grades 7 and 8. It is calculated as follows:

**number of dropouts in grades 7 and 8 during the 2020–21 school year**

---

**number of students in grades 7 and 8 in attendance at any time during the 2020–21 school year**

*Annual Dropout Rate (Gr 9–12).* This includes grades 9 through 12. It is calculated as follows:

**number of dropouts in grades 9–12 during the 2020–21 school year**

---

**number of students in grades 9–12 in attendance at any time during the 2020–21 school year**

# 2021–22 Texas Academic Performance Report

## (TAPR) Glossary

Both annual dropout rates appear on campus, district, region, and state TAPRs. The state and region annual dropout rates that are reported on district and campus TAPRs, however, are calculated without the exclusions required for campus and district calculations.

Note that with all annual dropout rate calculations, a cumulative count of students is used in the denominator. This method for calculating the dropout rate neutralizes the effect of mobility by including in the denominator every student ever reported in attendance at the district or campus throughout the school year, regardless of length of enrollment. For a more complete description of dropout rates and exclusions, see the [Secondary School Completion and Dropouts in Texas Public Schools, 2020–21](#) reports, available on the TEA website at [http://tea.texas.gov/acctres/dropcomp\\_index.html](http://tea.texas.gov/acctres/dropcomp_index.html).

For detailed information on data sources, see Appendix H in the [2022 Accountability Manual](#) (Data source: PEIMS 40203, 40110, 42400, and 42500)

**Longitudinal Rates:** The status of a group (cohort) of students after four years in high school (*4-Year Longitudinal Rate*), after five years in high school (*5-Year Extended Longitudinal Rate*), or after six years in high school (*6-Year Extended Longitudinal Rate*).

For the *4-Year Longitudinal Rate*, the cohort consists of students who first attended ninth grade in 2017–18. They are followed through their expected graduation with the Class of 2021.

For the *5-Year Extended Longitudinal Rate*, the cohort consists of students who first attended ninth grade in 2016–17. They are followed for five years and included if they graduated within a year after their expected graduation with the Class of 2020.

For the *6-Year Extended Longitudinal Rate*, the cohort consists of students who first attended ninth grade in 2015–16. They are followed for six years and included if they graduated within two years after their expected graduation with the Class of 2019.

### *Additional Information on Cohorts:*

A student transfers into a campus, district, or state cohort when he or she moves into the cohort from another high school in Texas, from another district in Texas, or from out of state.

A student transfers out of a campus or district cohort when he or she moves to another public high school in Texas or moves to another district in Texas. Note that these students are transferred into the cohort of the high school or district to which they moved. There are also students who move out of state or out of the country and students who transfer to private schools or who are home-schooled. These types of transfer students cannot be tracked and are not included in longitudinal rate calculations.

A student does not change cohorts if he or she repeats or skips a grade. A student who begins with the 2017–18 ninth-grade cohort remains with that cohort. A student who started the ninth grade in 2017–18 but takes 5 years to graduate (i.e., graduates in May 2022) is still part of the 2021 cohort; he or she is not switched to the 2022 cohort. This student would be considered a continuing student and counted as part of the Continued HS number for the Class of 2021. This is also true for the five-year and six-year extended longitudinal cohorts.

There are four student outcomes used in computing each longitudinal rate:

Please note, the Enrollment section of this report was added beginning with 2019–20. The definitions below describe the nuances between Membership and Enrollment. If comparing the data shown from this year's report to reports prior to 2019–20, use the data displayed under Membership.

**Enrollment:** Students reported as enrolled as of the last Friday in October (October 29, 2021).

**Membership:** Membership differs from enrollment, as it does not include those students who are served for less than two hours per day. A student is in membership if he/she is enrolled and is either

- scheduled to attend at least two hours of instruction each school day or
- participating in an alternative attendance accounting program.

For example, the count of *Total Students* excludes students who attend a non-public school but receive some services, such as speech therapy—for less than two hours per day—from their local school district.

**Total Students:** The total number of public school students who were reported at any grade from early childhood education through grade 12. (Data source: PEIMS 40110)

**Students by Grade:** The count of students in each grade divided by the total number of students. (Data source: PEIMS 40110)

**Ethnic Distribution:** The number and percentage of students and staff who are identified as belonging to one of the following groups: African American, Hispanic, white, American Indian, Asian, Pacific Islander, and two or more races. (Data source: PEIMS 40100, 30040, 30050, 30090)

**Male/Female:** The number and percentage of students who are identified as male or female. (Data source: PEIMS 40100)

**Economically Disadvantaged:** The count and percentage of students eligible for free or reduced-price lunch or eligible for other public assistance.

**Non-Educationally Disadvantaged:** Those students not eligible to participate in free or reduced-price lunch or to receive any other public assistance. This is the complementary count and percentage to Economically Disadvantaged.

**Section 504 Students:** The count and percentage of students identified as receiving section 504 services. *(Data source: PEIMS 40110)*

**Emergent bilingual students/English learner (EB/EL) :** The count and percentage of students whose primary language is other than English and who are in the process of acquiring English. The terms “English Learner” (EL) and “Emergent Bilingual” (EB) are used interchangeably.

The percentage of EB/ELs is calculated by dividing the number of EB/ELs by the total number of students in the district or campus. Not all students identified as EB/ELs receive bilingual or English as a second language instruction. *(Data source: TELPAS file)*

**Students with Disciplinary Placements:** The count and percentage of students placed in alternative education programs under [Chapter 37 of the Texas Education Code](#) (Discipline; Law and Order). Districts report the disciplinary actions taken toward students who are removed from the classroom for at least one day. Although students can have multiple removals throughout the year, this measure counts students only once and includes only those whose removal results in a placement in a disciplinary alternative education program or juvenile justice alternative education program. It is calculated as follows:

$$\frac{\text{number of students with one or more disciplinary placements}}{\text{number of students who were in attendance at any time during the school year}}$$

For 2021–22, the following 19 disciplinary action codes are included as disciplinary placements: 02, 03, 04, 07, 08, 10, 12, 13, 14, 15, 51, 52, 53, 54, 55, 57, 59, 60, and 61. *(Data source: PEIMS 44425)*

**Students with Dyslexia:** The count and percentage of students identified with Dyslexia. *(Data source: PEIMS 40100)*

**Foster Care:** The count and percentage of students identified as in the conservatorship of the Department of Family and Protective Services (DFPS). *(Data source: PEIMS 40100)*

**Homeless:** The count and percentage of students meeting the criteria defined by 42 U.S.C. Section 11434(a), the term “homeless children and youths” —

(A) individuals who lack a fixed, regular, and adequate nighttime residence [within the meaning of section 11302(a)(1)]; and

(B) includes —

(i) children and youths who are sharing the housing of other persons due to loss of housing, economic hardship, or a similar reason; are living in motels, hotels, trailer parks, or camping grounds due to the lack of alternative adequate accommodations; are living in emergency or transitional shelters;

(ii) children and youths who have a primary nighttime residence that is a public or private place not designed for or ordinarily used as a regular sleeping accommodation for human beings [within the meaning of section 11302(a)(2) (C)];

(iii) children and youths who are living in cars, parks, public spaces, abandoned buildings, substandard housing, bus or train stations, or similar settings; and

(iv) migratory children (as such term is defined in section 6399 of title 20) who qualify as homeless for the purposes of this subtitle because the children are living in circumstances described in clauses (i) through (iii).

*(Data source: PEIMS 40100)*

**Immigrant:** The count and percentage of students identified under the definition found under Title III of the No Child Left Behind Act of 2001 (NCLB), where the term ‘immigrant children and youth’ is defined as, “individuals who are aged 3 through 21; were not born in any state; and have not been attending one or more schools in any one or more states for more than 3 full academic years.” The term ‘State’ means each of the 50 States, the District of Columbia, and the Commonwealth of Puerto Rico.

*(Data source: PEIMS 40100)*

**Migrant:** The count and percentage of students that meet the following criteria: Student is (ages 3-21), or the student's parent, spouse, or guardian is a migratory agricultural worker, including a migratory dairy worker, or a migratory fisher, and who, in the preceding 36 months, in order to obtain, or accompany such parent, spouse, or guardian in order to obtain, temporary or seasonal employment in agricultural or fishing work: 1) has moved from one school district to another; or 2) resides in a school district of more than 15,000 square miles, and migrates a distance of 20 miles or more to a temporary residence to engage in a fishing activity. *(Data source: PEIMS 40100)*

**Title I:** The count and percentage of students participating in a program authorized under Elementary and Secondary Education Act (ESEA), Title I, Part A of the Improving America's Schools Act. *(Data source: PEIMS 41461)*

**Military Connected:** The count and percentage of students who are dependents of an active duty or former member of the United States military, the Texas National Guard, or a reserve force of the United States military, or who are dependents of a member of the United States military, the Texas National Guard, or a reserve force of the United States military who was killed in the line of duty. *(Data source: PEIMS 40100)*

**At-Risk:** The count and percentage of students identified as being at risk of dropping out of school as defined by [TEC §29.081\(d\) and \(d-1\)](#).

**number of mobile students in 2020–21**

---

**number of students who were in membership at any time during the  
2020–21 school year**

## 2021–22 Texas Academic Performance Report (TAPR) Glossary

This rate is calculated at the state, region, district, and campus level and is disaggregated by race/ethnicity, economically disadvantaged status, special education status, and emergent bilingual students/English learner status. The mobility rates shown are based on the count of mobile students identified at the campus level. The district mobility rate reflects school-to-school mobility within the same district or from outside the district. The region mobility rate reflects school-to-school mobility within the same region or from outside the region. (*Data source: PEIMS 42400*)

**Attrition Rates:** The percentage of students enrolled in fall 2020–21 who did not return to the same campus in the fall of 2021–22. This calculation is adjusted to account for the grade levels available to students at each campus as well as additional factors. For instance, students were excluded from the calculation if they were enrolled at the highest grade offered at the campus, were not considered to be in membership for the purposes of calculating average daily attendance for funding purposes or were at a campus in 2020–21 that was no longer active in 2021–22. Students who were retained in grade, including those in grade 12, remained in the calculation. Attrition Rate is calculated as follows:

$$\frac{\text{number of students enrolled in fall 2020} - \text{number of students who returned in fall 2021}}{\text{number of students enrolled in fall 2020}}$$

**Retention Rates by Grade:** The percentage of students in Texas public schools who enrolled in fall 2021 in the same grade in which they were reported for the last six-week period of the prior school year (2020–21).

$$\frac{\text{the number of students enrolled in the same grade from one school year to the next}}{\text{the number of students enrolled from one school year who return the next year or who graduate}}$$

Special education retention rates are calculated and reported separately because local retention practices differ for students served by special education.

The TAPR and TPRS show retention rates only for grades K–9. Retention rates for all grades can be found in [Grade-Level Retention in Texas Public Schools, 2020–21](#), available from TEA. (*Data source: PEIMS 40110*)

**Data Quality** (*not on campus profile*): The percentage of errors made by the district in the PEIMS Student Leaver Data.

*Percent of Underreported Students.* Underreported students are 7<sup>th</sup>–12<sup>th</sup> graders who were enrolled at any time during the prior year, who are not accounted for through district records or TEA processing in the current year, and for whom the district did not submit a leaver record. A district is required to submit a leaver record for any student served in grades 7–12 the previous year unless the student received a Texas high school equivalency certificate (TxCHSE) certificate by August 31, is a previous Texas public school graduate, moved to and enrolled in another Texas public school district, or returned to the district by the end of the school start window. (For 2020–21 the end of the school-start window was September 25, 2021)

**Class Size Averages by Grade and Subject:** The average class size by grade (elementary) or selected subjects (secondary classes).

For secondary classes, averages are determined by totaling the number of students served (in a subject at the campus) and dividing that sum by the count of classes for that subject.

For elementary classes, the average is determined based on the instructional model. If an elementary teacher teaches all subjects to the same group of fourth graders all day, the class size average is simply the number of fourth grade students served by that teacher. If an elementary teacher teaches a single subject to five different sections of fourth graders each day, however, the average is calculated the same way as for secondary subjects. For example, one fourth grade science teacher teaches five science classes each day with 18, 20, 19, 21, and 22 students in each class. The total of 100 students divided by the five classes produces an average class size of 20 students for that teacher.

The following rules apply to the average class sizes:

- Classes identified as serving regular, compensatory/remedial, gifted and talented, career and technical, and honors students are included in the calculation.
- English language arts (ELA), mathematics, science, social studies, languages other than English, computer science, and career and technical education are included in the calculation, as are self-contained classrooms.
- Classes where the number of students served is reported as zero are not included.
- Service codes with the “SR” prefix are not included.
- Teacher roles coded as “teacher” and/or “substitute teacher” are included.
- Only class settings coded as “regular class” are included.
- Missing partial FTE counts are not included.
- Elementary classes in which the number of students exceeds 100 are not included.
- Mixed grade-level class averages are not included.

## Staff Information (2021–22)

**Total Staff:** The total count of staff which includes professional staff (teachers, professional support, administrators), educational aides, and (on the district profile) auxiliary staff. (Data source: PEIMS 30040, 30050, and 30090)

## 2021–22 Texas Academic Performance Report (TAPR) Glossary

**Professional Staff:** The full-time equivalent (FTE) count of teachers, professional support staff, campus administrators, and on the district profile, central office administrators. Staff are grouped according to roles as reported in PEIMS. Each type of professional staff is shown as a percentage of the total staff FTE. See Appendix B for all PEIMS Role IDs. *(Data source: PEIMS 30040, 30050, and 30090)*

**Educational Aides:** The count and percentage of paraprofessional staff who are reported with a role of 033 (Educational Aide) or 036 (Certified Interpreter). The FTE counts of educational aides are expressed as a percentage of the total staff FTEs. See Appendix B for all PEIMS Role IDs. *(Data source: PEIMS 30090)*

**Auxiliary Staff** *(not on campus profile):* The count of full-time equivalent (FTE) staff reported in PEIMS employment and payroll records who are not reported in the PEIMS 30090 Staff – Responsibilities record. The auxiliary staff (and educational aide who performs routine classroom tasks under the general supervision of a certified teacher or teaching team) are expressed as a percentage of total staff. For auxiliary staff, the FTE is the value of the percentage of day worked. *(Data source: PEIMS 30060 and 30090)*

**Librarians and Counselors (Headcount):** The headcount of librarians and counselors is based on full-time equivalent (FTE) for full-time and part-time headcounts. Librarians and counselors are considered part-time when the FTE count is less than or equal to .85 (For example, if an FTE count is less than or equal to .85, the part-time headcount is equal to 1).

Librarians and counselors are headcounts, not sums of FTEs. The district headcount is not a sum of the campus headcount. For example, a counselor spends 50 percent of their time at the elementary (0.50 FTE) and 50 percent of their time at the high school (0.50 FTE). On each of the campus reports, this counselor will be reflected as 1.0 part-time counselor. On the district report, the counselor will be reflected as 1.0 full-time counselor since the FTE count is greater than .85 (0.50 FTE plus 0.50 FTE=1.0 FTE). See Appendix B for PEIMS Role IDs (Professional Support Staff). *(Data source: PEIMS 30040, 30050, and 30090)*

**Total Minority Staff:** The total count of minority staff is the sum of the FTE counts for all non-white staff groups (African American, Hispanic, American Indian, Asian, Pacific Islander, and Two or More Races). The minority staff FTE count is expressed as a percentage of the total staff FTE. *(Data source: PEIMS 30040, 30050, and 30090)*

**Teachers by Ethnicity and Sex:** The counts of teacher FTEs by ethnic group and by sex. Counts are also expressed as a percentage of the total teacher FTEs. *(Data source: PEIMS 30040, 30050, and 30090)*

**Teachers by Highest Degree Held:** The distribution of degrees held by teachers. The FTE counts of teachers with no degree, a bachelor's degree, a master's degree, or a doctorate are expressed as a percentage of the total teacher FTEs. *(Data source: PEIMS 30040, 30050, and 30090)*

**Teachers by Years of Experience:** The FTE count of teachers by total years of experience for the individual, not necessarily years of experience in the district or campus. Teacher counts within each range of experience are expressed as a percentage of total teacher FTEs. Teachers are reported with zero years of experience (first year teachers), 1–5 years, 6–10 years, 11–20 years, 21–30 years, and over 30 years. *(Data source: PEIMS 30040, 30050, and 30090)*

## (TAPR) Glossary

**Number of Students per Teacher:** The total number of students divided by the total teacher FTE count. *(Data source: PEIMS 30040, 30050, and 30090)*

**Experience of Campus Leadership:** The average years of experience for principals and assistant principals.

*Average Years as Principal:* The number of completed years of experience as a principal, regardless of district or interruption in service. These amounts are added together and divided by the number of all principals reported for the campus.

*Average Years as Principal with District:* The number of years a principal is employed in the district regardless of any interruption in service. The amounts are added together and divided by the number of principals reported for the district.

*Average Years as Assistant Principal:* The number of completed years of experience as assistant principal, regardless of district or interruption of service. The amounts are added together and divided by the number of assistant principals reported for the campus.

*Average Years as Assistant Principal with District:* The number of years employed as assistant principal in the district regardless of any interruption in service. These amounts are added together and divided by the number of assistant principals reported for the district.

*(Data source: PEIMS 30050)*

**Average Years Experience of Teachers:** The average number of completed years of professional experience, regardless of district. Weighted averages are calculated by multiplying each teacher's FTE coefficient (1 for a full-time teacher, .75 for a three-quarter-time teacher, and .5 for a half-time teacher, for example) by his or her years of experience. These amounts are added together and divided by the sum of all teachers' FTE coefficients. *(Data source: PEIMS 30040, 30050, and 30090)*

**Average Years Experience of Teachers with District:** The average number of years employed in the district regardless of any interruption in service. Weighted averages are calculated by multiplying each teacher's FTE coefficient by his or her years of experience in the district. These amounts are added together and divided by the sum of all teacher's coefficients. *(Data source: PEIMS 30050)*

**Average Teacher Salary by Years of Experience (regular duties only):** Total pay for all teachers in each category divided by the total teacher FTE count in that category. For the purpose of this calculation, the total actual salary amount is pay for regular duties only and does not include supplemental pay. For teachers who also have non-teaching roles, only the portion of time and pay dedicated to classroom responsibilities is factored into the average teacher salary calculation. Teachers are reported with zero years of experience (first year teacher), 1–5 years, 6–10 years, 11–20 years, 21–30 years, and over 30 years. *(Data source: PEIMS 30060)*

**Average Actual Salaries (regular duties only):** For each category, the total salary for that category divided by the total FTE count for that category. Only payment for regular duties is included in the total salary; supplemental payments for extra duties (e.g., coaching, band and orchestra assignments, club sponsorships) are not included. See Appendix B for lists of the PEIMS role IDs included in each category.

*Teachers.* Teachers, special duty teachers, and substitute teachers. Substitute teachers are either temporarily hired to replace a teacher or hired permanently on an as-needed basis. The District

## 2021–22 Texas Academic Performance Report (TAPR) Glossary

Teacher Salary Report and Graph also uses this definition in creating counts for various salary ranges.

*Professional Support.* Therapists, nurses, librarians, counselors, and other campus professional personnel.

*Campus Administration (School Leadership).* Principals, assistant principals, and other administrators reported with a specific school ID.

*Central Administration (not on campus profile).* Superintendents, presidents, chief executive officers, chief administrative officers, business managers, athletic directors, and other administrators reported with a central office ID and not a specific school ID.

**Instructional Staff Percent** (*district profile only*): The percentage of the district's FTEs whose job function was to provide classroom instruction directly to students during the 2020–21 school year. The instructional staff percent is a district-level measure and is calculated as follows:

$$\frac{\text{total number of hours for district staff who were reported under expenditure object codes 6112, 6119, and 6129, and function codes 11, 12, 13, and 31}}{\text{total number of hours worked by all district employees}}$$

Contact the Division of Financial Compliance at (512) 463-9095 for further details about this measure. (*Data source: PEIMS 30040, 30050, and 30090*)

**Turnover Rate for Teachers** (*not on campus profile*): The percentage of teachers from the fall of 2020–21 who were not employed in the district in the fall of 2021–22. It is calculated as the total FTE count of teachers from the fall of 2020–21 who were not employed in the district in the fall of 2021–22, divided by the total teacher FTE count for the fall of 2020–21. Staff who remained employed in the district but not as teachers also count toward teacher turnover. (*Data source: PEIMS 30040 and 30090*)

**Staff Exclusions** (*not on campus profile*): The counts of individuals who serve public school students but are not included in the FTE totals for any of the other employee statistics. There are two types of these entries: individuals participating in a shared services arrangement and individuals on contract with the district to provide instructional services.

*Shared Services Arrangement (SSA) Staff* are staff who work in schools located in districts other than their employing district or whose assigned organization (in PEIMS) shows a code of 751, indicating that they are employed by the fiscal agent of an SSA. Only the portion of a person's total FTE amount associated with the school in another district (or with the 751 organization code) is counted as SSA. SSA staff are grouped into three categories: Professional Staff (which includes teachers, administrators, and professional support); Educational Aides; and Auxiliary Staff. Note that SSA Auxiliary Staff are identified by the type of fund from which they are paid.

*Contracted Instructional Staff (District and Campus Profiles)* refers to counts of instructors for whom the district has entered into a contractual agreement with some outside organization. Through the contract, the outside organization has committed to supplying instructional staff for the district. They are never employees of the reporting school district. (*Data source: PEIMS 30055 and 30060*)

## 2021–22 Texas Academic Performance Report (TAPR) Glossary

**Contracted Instructional Staff:** The count of individuals who are not regular classroom teachers who have signed a contract with a district, nor are they shared services arrangement employees. Rather, these are instructors for whom the district has entered into a contractual agreement with an outside organization. Through the contract, the outside organization has committed to supplying instructional staff for the district. They include, but are not limited to, speech therapists, occupational therapists, and any other professional contracted staff working in a classroom on a dedicated basis. *(Data source: PEIMS 30055)*

**Teachers by Program** *(population served)*: The FTE count of teachers categorized by the type of student populations served: regular, special, compensatory, bilingual/ESL, gifted and talented education students, and other populations. Teacher FTE values are allocated across population types for teachers who serve multiple population types. Percentages are expressed as a percentage of total teacher FTEs. *(Data source: PEIMS 30040, 30050, and 30090)*
