Lakeview Elementary

April 2026

Child Abuse Prevention Month

April is officially Child Abuse Awareness and Prevention Month. However, as you know, keeping our kids safe is something we do every day. This year our Vikings have learned about trusted adults and how to speak up for themselves. Younger Vikings have learned how to be assertive when something seems wrong through our Child Builders Program. Our older Vikings have learned how to report something that isn't right, advocate for themselves, and they understand how to NO, GO, and TELL. All Vikings have learned that nobody should tell you to keep a secret from your trusted adult. Teaching children how to stay safe and speak up is very important. We understand that child abuse is a sensitive topic and are including some resources you can use at home to support these important conversations.

Here to help,
Mrs. Armiger, School Counselor

Word of the Month: CONFIDENCE

Our character trait for this month is confidence. **Confidence** means believing in yourself and saying, "I can do this!" even when something feels a little hard. We are encouraging students to try new things, share their ideas, and keep going when they make mistakes. Mistakes help us learn and grow! You can help at home by cheering your child on, celebrating their effort, and reminding them to keep trying. Together, we can help our students feel proud, brave, and ready to learn!
