# INTRODUCTION

## PHILOSOPHY

The Board believes that the student dress code is an important component of a District and campus culture. The administration shall develop a student dress code that establishes clear expectations and promotes the attributes of the District's Profile of a Graduate. [See AE(LOCAL)] In addition, the dress code shall promote respect for self and others, a safe learning environment, and respect the diversity of the learning community.

Students and parents may determine the student's personal dress and grooming standards, provided they comply with this policy and with the student dress code included in the Student Code of Conduct.

# STANDARDIZED DRESS

## PURPOSE

The District defines standardized dress as a dress code that, while not as regimented as a uniform dress code, requires students to wear clothing from a limited selection of approved clothing options.

The intent of a standardized dress code is that it contributes to a learning environment that has an increased focus on academics and positive educational climate.

To implement a standardized dress code, the campus is required to follow the procedures shared in these documents. A process to engage the staff, parents and community in decisions related to standardized dress is imperative and must include multiple staff, parents and community engagement meetings to obtain feedback and gather data on the level of support from faculty and staff and parents. Gathering information/receiving input may be obtained via electronic methods or can be obtained through hard copies.

## REQUIRED STEPS: INCLUDING PARTICIPATION AND APPROVAL RATES

The principal must receive approval (majority in consensus) from the Campus Planning Advisory Committee (CPAC) before proceeding to step two.

### STEP TWO:

There must be at least an **\*80 percent return rate for the staff surveys and at least a 75 percent approval rate** by staff in order to proceed to step three.

### STEP THREE:

The principal must **\*\*obtain at least a 60 percent return rate from the parent surveys and at least a 75 percent approval rate** of the surveys returned or submitted.

### **REQUIRED DOCUMENTATION: *FACULTY AND STAFF***

# UNIFORMS

## PURPOSE

The District defines uniforms as a specific attire that all students are required to wear. [See FNCA(LEGAL)] The intent of requiring uniforms is to improve the learning environment at a school by increasing school spirit, promoting a safe and collaborative school community, and removing distractions.

A safe and disciplined learning environment is essential to the development of a positive educational climate and school culture. Young people who feel safe and secure and who learn basic values and good citizenship are better students. Parents, teachers, and school officials have recognized school uniforms as a positive and creative way to decrease discipline problems and increase school safety. Uniforms for students are beneficial for the following reasons:

- Decreases violence and theft among students;
- Helps prevent gang members from wearing gang colors or insignia at school;
- Instills students with discipline;
- Helps parents and students resist peer pressure;
- Helps students concentrate on their schoolwork; and
- Helps school officials recognize intruders who come into our schools.
