Definitions

Overview– The content in this document provides an overview of the pacing and concepts covered in a subject for the year.

TEKS – Texas Essential Knowledge and Skills (TEKS) are the state standards for what students should know and be able to do.

Process Standards – The process standards describe ways in which students are expected to engage in the content. The process standards weave the other knowledge and skills together so that students may be successful problem solvers and use knowledge learned efficiently and effectively in daily life.

Unit Overview – The unit overview provides a brief description of the concepts covered in each unit.

Big Ideas and Essential Questions - Big ideas create connections in learning. They anchor all the smaller isolated, facts together in a unit. Essential questions (questions that allow students to go deep in thinking) should answer the big ideas. Students should not be able to answer Essential Questions in one sentence or less. Big ideas should be the underlying concepts, themes, or issues that bring meaning to content.

Concept – A subtopic of the main topic of the unit

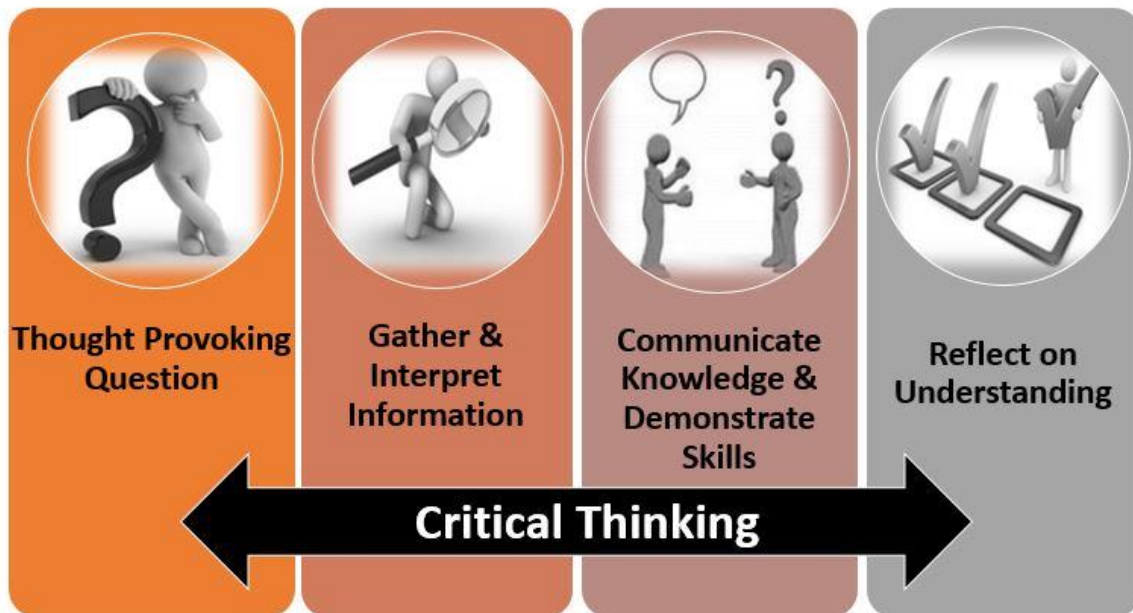

Instructional Model – The structures, guidelines or model in which students engage in a particular content that ensures understanding of that content.

Social Studies Instructional Model

This model is an inquiry-based approach to learning Social Studies with a focus on critical thinking skills. Students start with a thought-provoking question, which frames the concept and flows throughout. After students make predictions based on the question, students will gather and interpret information to build his/her understanding of the standard(s) addressed by the question. Next, students will communicate the knowledge gained and demonstrate understanding by engaging in communication and application skills. Finally, students will reflect and assess their understanding.
