Parent Guides are available for all courses participating in the Grading Pilot. They will communicate to you what your students will be learning during the current grading period. You will see a list of competencies. These were developed by teachers to show how particular TEKS are taught within each grading period across the district.	<page-header></page-header>
Teachers report student progress on the competencies using the learning progressions. On the right side of the competencies chart, you will see the grading period each competency is taught in.	

If you scroll down, you will see the second part of the Parent Guide. The competency is listed at the top of the page. The Proficient column shows you what a student has to do to demonstrate proficiency in that competency. There are four levels in the progression. Success criteria are found at the bottom of the chart. These are what student must master by the end of the quarter to demonstrate proficiency.	<text></text>
To find out how your child is doing related to each competency, you must look in Skyward Family Access. Go to the Fort Bend ISD home page and click on Skyward Family Access. Then click Log In to Skyward Family Access.	THE REAL PARTICULAR CLARK CLAR
