

## Fifth Grade Social Studies Q4

The purpose of this document is to clarify what students should know and be able to do each grading period.

The **Competencies** listed in the table below are developed from the Texas Essential Knowledge and Skills (TEKS) for that grade level. The chart defines which quarter the Competency is reported (Q1 = Grading Period 1, Q2 = Grading Period 2, etc.)

Teachers will report on the competencies using the **Competency Progressions** which are comprised of four proficiency levels (developing (DV), progressing (PG), proficient (PG) and advanced (AV)) and defines the knowledge and skills students will master on their pathway to proficiency. The Learning Progressions for each Competency are below the yearlong outline of the Competencies. Following the Learning Progression are the Competency Success Criteria, which define what a student knows and is able to do related to that competency at the end of a unit or quarter. To see what success on the competencies looks like in a particular unit, please see the **Public Overview** document for the course.

Students who receive a mark of “**Proficient**” meet the grade level expectation for that Competency.

Competencies	Q1	Q2	Q3	Q4
<b>C1—U.S. Geography</b> The student understands how geographic factors influence where people live.	X			
<b>C2—Early Colonization to American Revolution</b> The student understands the reasons for European colonization and the events that led to the conflict between the American colonies and Great Britain.	X	X
